

HON. H. W. CLAPP, MAYOR.

Compliments of

Henry W. Clapp,

Mayor.

Mayor.

ADDRESS

OF

HON. HENRY W. CLAPP,
MAYOR,

DELIVERED BEFORE THE CITY COUNCIL OF CONCORD, N. H.,
TUESDAY, JANUARY 27, 1891.

MAYOR'S ADDRESS.

Gentlemen of the City Council :

In accordance with the city charter we have accepted the oath of office, and find ourselves upon the beginning of a new year—through the trust confided in us by our fellow-citizens — here assembled to formally inaugurate the city government for the coming two years. To these citizens we have pledged ourselves for an impartial and economical management of the city affairs.

Permit me, before proceeding further, to express through you, to my fellow-citizens, my appreciation of the honor they have bestowed upon me in designating me to fill the highest office it is their privilege to bestow. In accepting this honor, it is my purpose to honor them by a faithful and conscientious discharge of all the duties that devolve upon the office.

It is evident that the people of this city desire business men to govern their affairs. Our administration will be successful just so far as we respond to this demand. The same rules that apply in our business should be followed in governing our city. There should be no places for partisanship, or disposition of the spoils to the professional politician. The qualifications for office under this government should be integrity and capacity, meaning that there are no favorites or sinecures under a business man's government; that there are no side entrances to these council chambers, and that judgment rules instead of sentiment.

Whether such a government shall result from our coming together depends, in a great measure, upon you. There are so many able men among you, and you represent so

many different business pursuits, that great ability and valuable personal experience can be brought to bear upon every matter that shall come under consideration.

As the city fathers, we should guard the city's interest as we would those of our own families. These two years will be full of responsibilities, new to many of us, and whatever is referred to our consideration, the decisions made should be the outgrowth of careful deliberation.

Remember, that we are to consider matters for the future as well as for the present. Criticisms must be expected until our methods shall have been proved by trial. From the moral and upright we shall receive nothing but approval, and from all just men their whole support. And the whole city will feel the effects of such an administration by increased prosperity and unison of feeling.

This is the era of healthy growth and prosperity all over the land, and the rising generation demands of us to keep abreast of the times in all our doings. What has sufficed in the past may be entirely wrong to follow in the future. We must so legislate that our various industries will surely remain here, and must endeavor to attract toward our city much of the idle capital that always seeks investment in a wide-awake municipality.

FINANCES.

Funded debt of the city,	\$82,300.00
Precinct funded debt (state-house loan),	26,000.00
" " (sewer bonds),	12,000.00
Water-works loan,	435,000.00
Union School District bonds,	116,000.00
School District No. 20 bonds,	4,500.00
Penacook Sewer Precinct Bonds,	21,000.00

CITY DEBT NOT FUNDED.

Notes on account of highways,	\$8,000.00
Coupons overdue, not presented,	187.50
Bond overdue, not presented,	250.00
Interest accrued, not yet due,	1,048.49

MAYOR'S ADDRESS.

V

PRECINCT DEBT NOT FUNDED.

Coupons overdue, not presented,	\$255.00
Interest accrued, not yet due,	370.00
City bonds becoming due in 1891,	13,250.00
Precinct bonds becoming due in 1891,	2,000.00
Interest on city bonds due in 1891,	4,262.00
Interest on state-house loan bonds due in 1891,	1,560.00
Interest on sewer bonds due in 1891,	480.00

AVAILABLE ASSETS.

Cash in treasury,	\$41,016.30
Tax 1889, uncollected,	90.95
Tax 1890, uncollected,	19,705.95
Due from Merrimack county,	5,383.32
Interest on Union School District bonds, due in 1891,	\$4,640.00
Interest on School District No. 20 bonds, due in 1891,	180.00
Interest on Penacook sewer precinct bonds, due in 1891,	840.00
Amount of sinking fund due from Penacook sewerage precinct in 1891,	500.00

LIQUOR AGENCY.

Sales for the year,	\$3,952.84
Cost of liquors sold,	2,995.94
Expenses,	942.66
Net profits,	14.24

It is my duty to call your attention to the condition of the several departments of the municipal affairs. I shall add such suggestions and recommendations as seem in my judgment to be wise.

In our public schools we may justly take pride, and I mention them thus early, because it is to them that we must look for helpful work in the training of youth and in the making of character.

The Board of Education may congratulate itself upon

the material results of the last two years, as evinced by the substantial, commodious, and even elegant school-houses which have been erected. The cost of the new buildings has been,—

Franklin school, including the removal and refitting of the old building,	\$16,432.81
Kimball school,	57,673.61
High school,	80,000 00

We find efficient teachers in every department; and in our superintendent, Mr. L. J. Rundlett, we have one who has by earnest labor brought the course of study pursued here to a high standard, when compared with that of other cities in New England. I am not aware that any proposition for further building is likely to come before you.

WATER DEPARTMENT.

When our water-supply was first received from Penacook lake, it was supposed it would abundantly satisfy the demands to be made upon it. This is an instance in which foresight was somewhat obscured by the extent of future progress. Time has revealed to us more growth in our city's population than was then anticipated. The result is a deficiency in the necessary force of our water-supply. Added to this increase of population in the city proper has been the annexing of Penacook, West Concord, and Millville.

That some definite and immediate action should be taken is very evident. Its capacity is taxed to its utmost every day, and should a conflagration occur in our midst we should be embarrassed in our efforts to control it. Especially is the deficiency in our water force noticeable in the part of our city known as "on the hill." There are located many of our handsome residences, and there, too, can be found valuable land for further building, if sufficient water privileges can be provided there.

In the business portions the water commissioners have

had continually to refuse any more requests for water as a motive power, and thus, in many instances, it interferes with successful business enterprise. With all these forcible facts staring us in the face, it will be disastrous to the interests of our city if we close our eyes to this condition of our water-works. From partial investigation by the water commissioners these facts have been ascertained, and it follows that we must seek increased supply from some body of water of higher elevation. Two remedies have been considered,—the one a pumping-station, the other an enlargement of the present gravity system.

The first action upon this matter will of course necessitate the issue of new bonds. To many of our citizens the first thought of "new bonds" is increased taxation, and that occasions dissatisfaction. I shall endeavor right here to correct this common error. Water bonds differ from many other city bonds in the fact that they are self-sustaining. Capitalists stand ready to assume our whole water debt, and pay a handsome premium. Added to this are the annual prices paid for the use of the water, and from the various kinds of business waiting for opportunity to use water is derived an income which puts a different phase upon these bonds than those, for instance, incurred by sewerage, which receives no annual income from usage.

This is a matter of importance which we may have to consider, and, should it assume definite form in real action, I hope we shall be wise in our decisions, and that they will result in accomplishing better water facilities.

The rapid growth and development of our city proper for the past few years will increase the work of the sewer committee. Our sewerage is good, but it should be a matter of constant care to guard against the advent of those diseases which in too many instances have their origin in a lack of good and sufficient drainage.

Some new sewers will be called for this year. I would recommend an extension of one as far as the south-west corner of White Park. Another should be put in on the

new Prospect street, to be entered from the east side of North State street, and the one already begun at the South End should be completed. It should be the policy of this committee to meet the demands as rapidly as possible, and to begin the work as early as the spring will admit.

The board of health, to which all sanitary matters are referred, is composed of gentlemen well qualified for the service. That the result of their labors in the past has produced a more healthful atmosphere, all will concede. This is a department which considers matters of vital importance. Every citizen should be awake to danger, and confer with this board upon all matters injurious to health which come under their observation. Then even more efficient results can be arrived at by the officials.

The Margaret Pillsbury General Hospital, the land and building for which have been provided by the munificent gift of our former citizen and ex-mayor, Hon. George A. Pillsbury, is a grand monument of philanthropy. The gratitude of our citizens will ever flow towards the giver. Here indeed will be a home for the sick and suffering, where professional skill and tender care will ever minister to their necessities. Fortunate is the city which has friends like the donor of The Margaret Pillsbury General Hospital. Our appropriation toward its support may well be a generous one.

The free public library, in the Fowler building, is a literary treasure open to every citizen. Now that its use is free, the demands upon its shelves are steadily increasing. A liberal appropriation for its maintenance and enlargement is called for by considerations of both public honor and public need.

White park, the gift of Mrs. Armenia S. White, has, during the past summer, made a most commendable development, and has been a very delightful surprise to many of our citizens. The value of the gift is only beginning to be appreciated as it should be. Mr. Charles Elliot, of Boston, the landscape architect, whose taste has aided in its development, says nature has done more to make this spot

suitable for a beautiful park than for any like convenient locality which he has known in our state.

The commissioners have expended the limited appropriations granted with marvellous results. I recommend for its development an appropriation larger than last year, so that old and young may the earlier enjoy the beautiful park in its fuller extent. A substantial fence should be built along its southern front, and a desirable addition to its northern area can be had for \$700. For these purposes I recommend an appropriation.

There is within our reach at the South End a very desirable woodland park. The trees on it are the growth of a century, and, to save them from being cut down, the tract has been purchased by some public-spirited gentlemen, and will, I understand, be offered to the city in memory of our late distinguished townsman, Hon. Edward H. Rollins. I shall recommend that it be accepted, and that suitable measures be taken for its preservation and future improvement.

HIGHWAYS.

The work upon our streets should be begun as early as the weather will admit. Macadamizing should be continued wherever the city travel demands it, keeping of course within bounds of the appropriations. The stone we have been using of late is not of sufficient hardness throughout. The soft stone wears down, and in time gives an uneven road. The stone chips from the stone-yards here will cost somewhat more, but will be worth much more for Macadamizing.

More new sidewalks will be called for, and some of the old ones need repairing. Better street-crossings in some localities should be laid. I doubt whether there is a community anywhere no more populous than our own which has so many miles of streets and sidewalks to maintain.

This work in the past has been well carried out in most instances, but in order to receive the full value of the

money thus invested there should be constant repairs. The compact part of the city should have attention first, the outside wards receiving their proportion of the appropriations. The people in these wards owning work-teams should be recognized in distributing the work of repairs in their locality, instead of sending teams from the city proper.

The office of commissioner of highways, as now constituted, gives all the power of action to one man, which has been fully demonstrated during the past few years. The mayor and aldermen are devoid of any authority in the dictation of the work of this department, so important to tax-payers. This arrangement, so independent of the voice of the mayor and aldermen, does not give perfect satisfaction. To modify it somewhat might give better results.

Our street electric lights have increased from seventeen to fifty-one. Luxury after a time becomes a necessity: so it has proved itself to be with electric lights. When we come to know the fact that several gas lights are dispensed with for each new electric light, they are not as expensive as was at first supposed. Adding a few more each year will give satisfaction equal to the expense incurred.

The question of rebuilding the Free bridge must come up for consideration, and be acted upon very soon. In my judgment, a bridge of substantial construction should be built. A modern iron bridge would never be a matter of regret to our city.

FIRE DEPARTMENT.

This department is in a condition very commendable. Its members are all worthy citizens, of great courage and ready action. To provide them with every available means to carry out the work required of them should unhesitatingly be attempted. With the recently purchased steamer, added to the apparatus already in use in the city proper, the department is well equipped as far as the able-bodied men and apparatus go, but sufficient water force is

wanting. Unless this want is speedily supplied, the other efficiencies of the department may avail us but little.

The number of alarms in 1890 was thirty-two; of these, sixteen were what are called still alarms.

The loss of property was \$35,657.67.

The electric fire-alarm has proved itself of great value, and has responded with accuracy in almost every instance.

By the death of the late chief-engineer, Mr. C. C. Blanchard, the city lost an efficient officer and the firemen a personal friend.

Our new chief-engineer is discharging his duties successfully.

The steward of the Fire Station should have more suitable apartments, removed from the immediate vicinity of the horses.

I would recommend the purchase of a pair of new horses immediately, and also that a pair of horses be kept at the station throughout the day, in readiness for action.

Some new "fabric hose" will be wanted at Penacook and West Concord. The usual appropriations will probably maintain the department.

Several of the city buildings need repairing, especially the Good Will hose-house and Ward Six ward-room. A special appropriation of several hundred dollars should be made for such repairs.

The Police Department, as now organized, has a marshal, assistant marshal, six patrolmen, and a number of efficient special officers. Our city has been orderly, and crimes of the most noticeable kind have been few. In several instances criminals have been hunted down with praiseworthy efficiency and skill.

In this department, harmony and good discipline are very necessary to good work, and care should be taken in the selection of our police. Physically strong, in character beyond reproach: these are recommendations that should be considered rather than political preferences.

The uniformed squad of police deserve special mention

for the admirable manner in which they have done escort duty in this city and several others. It would be a matter of much regret if this imposing line of men should cease to be an organization.

The new building for a police station and ward-room seems to be adequate to its purpose.

The city ambulance, in my opinion, should be under the immediate control of the police.

Blossom Hill cemetery has been in the hands of a competent committee, and satisfactory progress has been made in the adornment of the city of the dead. To continue this is, of course, our duty. I would suggest that more be done for the proper preservation of the Old North cemetery.

I wish, also, that our administration might witness the building of an appropriate gateway to Blossom Hill—perhaps the gift of some fortunate friend, who might thus do honor to himself and the dead.

I have submitted to your consideration the condition of the city finances, and other points of vital importance to the future of our city. Only as far as I can see now have I recommended improvements. I reserve the privilege of communicating to you, from time to time, any additional changes which, in my judgment, the needs of the city demand.

I refer you to the reports of the several committees for a more extended account of the work of the past two years.

My obligations should be expressed to the retiring mayor for much friendly counsel and aid.

After this brief expression of opinion, I think we are ready to enter upon our duties, and I feel sure they will be performed with courtesy and harmony. Coöperation must be our stronghold. By what we do, rather than by what we say, will our fellow-citizens judge us. I trust that when we retire from office it may be said of us that we have deserved the good opinion of all reasonable men.

HENRY W. CLAPP.

1891.

THE THIRTY-NINTH

ANNUAL REPORT

OF THE

RECEIPTS AND EXPENDITURES

OF THE

CITY OF CONCORD

FOR THE YEAR ENDING

DECEMBER 31, 1891

TOGETHER WITH OTHER ANNUAL REPORTS AND PAPERS RELATING TO
THE AFFAIRS OF THE CITY

Concord, N. H.

REPUBLICAN PRESS ASSOCIATION, RAILROAD SQUARE

1891

MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts, and no order will be given for its payment.

When bills are certified to as above, and left with the city clerk before 12 o'clock of the day of meeting of the Committee on Accounts, they will be audited by them, and, if approved, be ready for payment on the Thursday following.

Meetings of the Committee are held on the Thursday next preceding the third Tuesday in each month, at 2 o'clock p. m.

JOSEPH A. COCHRAN, *City Clerk*.

CITY GOVERNMENT,

CONCORD, N. H.

Inaugurated fourth Tuesday in January, biennially.
