## Drawing.

Drawing has progressed as usual with the exception of the High school work. The time given to the subject here and the other limitations which the teacher is obliged to observe are such as to render the subject of little value and to set the standard lower than that required in ordinary high schools. The studio class has been larger than usual, the attendance more regular and the work of a higher order of excellence.

## Music.

Music has been conducted upon essentially the same lines as heretofore. The books of the Educational Music Course have largely displaced those of the National Course. An effort has been made to render the High school work more varied and effective and it has been realized to a large extent. I suggest that consideration be given to the advisability of instituting a class of musical history. It is a subject worthy of any educational system and is in successful operation in other cities. The pupils sing in good tune and show unmistakable improvement in sight reading. From year to year the different grades vary in the amount and the quality of the work done, but the average is one of progress, not retrogression.

## Kindergartens.

But one new kindergarten has been started this year. In the fall one was established in the Cogswell building. At present the attendance is small. A knowledge of the growth of the other kindergartens leads me to believe, however, that this one will assume larger proportions.

## Elocution and Physical Training.

Miss Maude L. Wallace was elected as instructor of physical training and elocution during the winter term. She has brought to her work a professional training and a capacity for teaching which ought to insure success.

## Military Drill.

Military drill for both boys and girls has been carried on in the High school much as usual. Governor Rollins kindly allowed the use of the western part of the state house yard for purposes of drill during the spring term. This enabled the pupils to take up the more advanced work. There is much need of a hall for the companies during the winter. The pleasant days of the fall and spring terms permit out-of-door work, in which much more progress is made than during the winter term. The discipline has not been perfect and hardly approaching it. The Cadets held a successful prize drill at which the girls gave a creditable exhibition. The boys were represented at the competitive drill in Boston, which was given under the auspices of the Massachusetts Institute of Technology, and they carried off the honors at the recent drill of a local National Guard company. There is great need of some new rifles, belts, and also wooden dumb-bells for the girls. The Cadet colors are also in a dilapidated condition.

## Training School.

The Training school still continues to do creditable work, and sends forth teachers who give good account of themselves wherever they are called upon to teach. The work of the school has been seriously impeded this year by the epidemic of the fall, but the zeal which has always characterized the corps of teachers has in nowise abated.

Much discussion has been rife in this country during the last quarter of a century regarding the comparative values of different courses of study. This discussion seems to be no nearer settlement than it was in the beginning. In the United States the people as a rule subordinate theory to practice. They have an innate desire to see a man act more than he talks. This question as related to our schools as well as others is—have our pupils the physical and mental ability to do something? Upon this will the success or failure of our American system of instruction depend.

The supreme effort of all educational systems should be towards the proper and full development of the mental faculties. It is not fatal to a child's prospects that courses which seek this have or have not a strong element of utilitarianism. It matters not whether a boy shows mental power as the result of a course in classics or a course in manual training. The *result* is what men desire. If we seek habits of accuracy we care not whether the power is gained through careful translation of Greek or Latin, French or German, thorough work in English grammar, absolute work in arithmetic, algebra or geometry, planing to the line, the regular stitch, or using "just right measure" in cooking. The pupil who shows this development is the one who will be chosen for it.

The professional man and man of affairs ask for a pupil with the ability to think, receive instruction, apply it and to increase in strength. That a pupil fresh from the public schools cannot add long columns of figures and keep books as well as a clerk of ten years' experience is not to be criticised as the results of an educational system. It is neither reasonable nor just. If the pupil through his studies has been able to gain the power of thought, accuracy, and application, this is all any man can reasonably expect and about all he will ever get from any course of study, either specific or general. There is not a course of instruction in connection with our public schools that tends to unfit a boy or girl for any calling in life. To say that any particular course, from kindergarten to the classics, is necessary is a misstatement. The records of many pupils from our public schools, who have entered the schools of other cities, are of such a high standard as to silence criticism.

Our system of instruction is neither costly nor of a low standard, when justly compared with that of other cities of the same size. A statement to the contrary cannot be substantiated. The people are charitable in regard to mistakes which any one is liable to make, the pupils are interested, the teachers very hard workers, and those in charge of educational affairs are careful and conscientious in their administration.

I am highly appreciative of aid in my professional work and it is without formality that I acknowledge obligations to the board of education, the teachers and the general public for unvaried courtesy during the past year.

L. J. RUNDLETT.

# ANNUAL SCHOOL MEETING WARRANT.

---

STATE OF NEW HAMPSHIRE.

*To the inhabitants of Union School District qualified to vote in district affairs:*

You are hereby notified to meet at the city hall in said district on Thursday, the 29th day of March, 1900, at 7 o'clock in the evening, to act upon the following subjects:

1. To choose a moderator for the ensuing year.

2. To choose a clerk for the ensuing year.

3. To hear and act upon the report of the board of education for the past year.

4. To choose three members of the board of education, to hold office for three years, to fill the vacancies arising from the expiration of the term of office of John C. Ordway, Susan J. Woodward, and Henry F. Hollis, and also to fill any other vacancies which may occur in said board.

5. To choose one or more auditors, and all other necessary officers for the ensuing year.

6. To see what sum of money the district will raise and appropriate for the payment of the debts of the district.

7. To see what sum of money the district will raise and appropriate for the support of the schools for the ensuing year, including industrial education, military drill, and calisthenics.

8. To see what sum of money the district will raise and appropriate for repairs of school buildings during the ensuing year.

9. To transact any other business that may legally come before said meeting.

Given under our hands this 13th day of March, 1900.

JOHN C. ORDWAY,
CHARLES R. CORNING,
SUSAN J. WOODWARD,
A. J. SHURTLEFF,
H. C. BROWN,
WILLIS D. THOMPSON,
HENRY F. HOLLIS,

*Board of Education of Union School District.*

## ANNUAL MEETING OF UNION SCHOOL DISTRICT.

---

CONCORD, N. H., March 30, 1899.

Agreeably to the foregoing warrant, a meeting of the legal voters in Union School District was held at the city hall this thirtieth day of March, 1899, at 7 o'clock in the evening, and was called to order by the moderator, Charles C. Danforth, who read the foregoing warrant.

ARTICLE 1. Mr. B. E. Badger moved to proceed to the election of a moderator and that one vote be cast for Charles C. Danforth; motion carried, and the vote was cast by Mr. Badger.

Charles C. Danforth having one and the only vote was declared elected moderator. He was sworn in by Mr. A. J. Shurtleff, justice of the peace.

ART. 2. Mr. Badger moved to ballot for clerk and cast one vote for Louis C. Merrill.

Louis C. Merrill having one and the only vote cast was declared duly elected clerk of the district for the ensuing year, and took the oath of office.

ART. 3. Charles R. Corning moved that the report of the board of education as printed be accepted and placed on file; motion declared adopted.

ART. 4. Under this article A. J. Shurtleff offered the following resolution:

"That the three members of the board of education to be chosen for three years each, be voted for on one ballot. That the polls be opened at this time and remain open until 9 o'clock this evening; motion adopted, and the moderator declared the polls open."

ART. 5. On motion of Mr. H. C. Brown, it was voted that Mr. Joseph C. A. Hill and Mr. William Yeaton, the auditors of last year, be and hereby are, appointed auditors for the ensuing year.

ART. 6. John C. Ordway offered the following resolution and moved its adoption:

*Resolved*, That there be raised by tax on the polls and ratable estates of Union School District, the sum of seventeen thousand, one hundred dollars ($17,100), of which sum fifteen thousand dollars ($15,000) shall be appropriated for the payment of notes maturing July 1, 1899, and two thousand, one hundred dollars ($2,100) for the payment of the interest on its funded debt accruing during the year.

A vote was taken and the moderator declared the resolution adopted.

ART. 7. A. J. Shurtleff offered the following resolution:

*Resolved*, That there shall be raised, and is hereby ordered to be raised, by tax on the polls and ratable estates within Union School District, for the support of schools for the ensuing year, such a sum as in addition to the sum assigned to the district by the city of Concord out of the appropriation for schools, will amount to the sum of forty-five thousand dollars ($45,000).

Mr. Shurtleff moved the adoption of the resolution. A vote being taken the moderator declared it a unanimous vote in the affirmative.

ART. 8. H. C. Brown offered the following resolution:

*Resolved*, That the sum of two thousand dollars be raised by taxation upon the polls and estates of Union School District and appropriated for special repairs of school buildings, and that the expenditure of such a sum shall be under the direction of the board of education.

Mr. Brown moved the adoption of the resolution. A vote was taken and the moderator declared it a unanimous vote in the affirmative, and the resolution passed.

The moderator appointed Howard A. Dodge and George M. Fletcher a committee to assist in sorting and counting the votes.

ART. 9. William Yeaton moved that there shall be raised, and is hereby ordered to be raised, by tax on the polls and ratable estates within Union School District, and appropriated for the introduction of improved methods of heating and ventilation in the Merrimack and Rumford school buildings, the sum of fifteen hundred dollars ($1,500).

Joseph Wentworth moved that the matter be referred to the board of education; motion seconded and a vote taken, and the motion was declared lost.

The motion of Mr. Yeaton was then seconded, a vote taken, and declared in the affirmative.

John P. George moved to reconsider the vote on Mr. Yeaton's motion. Vote was taken, 64 voting in the affirmative and 62 in the negative; the motion to reconsider was adopted.

Mr. Yeaton's motion being before the meeting Mr. Howard F. Hill moved to amend the same by adding, "if in the opinion of the board of education such action is advisable"; motion was seconded, and the amendment was declared adopted.

Mr. Yeaton's motion, as amended by Mr. Hill, was then voted on, and declared adopted.

Nine o'clock having arrived the moderator declared the polls closed and proceeded to count the votes.

The moderator declared the ballot as follows:

| | |
|---|---|
| Total number of votes | 544 |
| Necessary for a choice | 273 |
| Benjamin E. Badger | 69 |
| Chancey Adams | 169 |
| Ebenezer B. Hutchinson | 1 |
| John E. Frye | 3 |
| Frank L. Phalen | 217 |
| Charles R. Corning | 323 |
| John M. Mitchell | 381 |
| Susan C. Bancroft | 421 |

Susan C. Bancroft, John M. Mitchell and Charles R. Corning, having a majority of votes, were declared by the moderator as elected.

On motion of Mr. Hill, voted to adjourn.

A true record. Attest,

LOUIS C. MERRILL,
*Clerk.*

# REPORT OF BOARD OF EDUCATION FOR DISTRICT NO. 20, FOR 1899–1900.

In the last report submitted by the school board of District No. 20 the attention of the citizens was called to some conditions then existing that had a tendency to retard general progress in the school. Their attention was also called to certain regulations that had recently been adopted and promulgated for the purpose of remedying those baneful conditions.

It is a source of gratification to your school board in submitting their annual report, for the year ending March, 1900, to testify to the beneficial results accruing from the operation of these regulations. One of those regulations provided that no child who had not attended school before should be admitted to the school except at the opening of the fall term. Owing to strict adherence to this provision it has been possible to rearrange the grading in the primary rooms so that each of the three teachers employed in that department have one grade only under their charge, thereby making it possible for them to do much more efficient work than under previous conditions, and at the same time dividing the number of pupils more nearly equal among all the grades.

Excepting in the second and third primary rooms the same corps of teachers has been employed for the past year that was employed for the previous year. Miss Florence A. Chandler, who previously taught with marked success in the second primary, was given the third primary, succeeding Miss Lizzie T. Elliot; and Mrs. Hannah R. Holden, a teacher of successful experience and well-deserved popularity, was placed in charge of the second primary.

In all grades the work done by the several teachers has been eminently satisfactory, and such progress has been made as is possible only through the services of competent instructors, and the harmonious coöperation of all parties concerned. We believe that the present system of supervision by the principal has been conducive to most beneficial results.

## Attendance.

The average attendance for the past year has been lowered somewhat on account of the prevalence of scarlet fever, whooping cough and measles, which epidemics have successively visited the district during the last year.

An enumeration of the children between the ages of five and sixteen, residing in the district, was taken last April. It was found that there were in the district at that time 129 boys and 116 girls, making a total of 245 resident pupils of school age. Another enumeration of the school children will be made by Special Officer Barrett before the first of April, 1900.

## Course of Study.

A new course of study was adopted at the beginning of the last fall term. It will not be possible the first year to meet with all the requirements of the course, especially in the higher grades. In the three primary grades they will, by the close of the next spring term, have completed the work prescribed, and we believe that by the close of another year all the grades will be working in strict conformity with the course. Those interested to examine the course of study can obtain a copy by applying to the secretary of the school board, or to the principal of the grammar school.

## Promotion and Graduation.

The matter of promotion in the several grades has been carefully supervised by the principal during the last year, and it is believed that only those who were able to do the work of the next higher grade satisfactorily were advanced. We believe that this is a matter that should be carefully attended to, as hasty promotion works an injury not only to the pupil thus advanced, but also a serious injury to the school in general. No pupil is to receive a certificate of graduation who has not successfully and satisfactorily completed the course laid down.

We believe that graduation from this school should, and furthermore we believe that it does, signify qualification to enter upon any high school course in the state. Since we are

dependent upon institutions outside of our district for instruction in high school branches, we consider it important that graduation from the Penacook grammar school signify some definite amount of work completed. And it is the policy of the school board, acting with the principal of the school, to graduate those only who have given satisfactory evidence of their ability to enter upon the work of any high school where they may apply for admission.

## Books, Etc.

The only change in books for the year was the adoption of Southworth & Goddard's "First Lessons in English" to be used in place of "Tarbell's Lessons in Language," in the fourth and fifth grades.

To meet with the requirements of the new course of study in the matter of reading and English the following books have been bought: "Stepping Stones to Literature," for third grade; "Hans Andersen's Fairy Tales," for fourth grade; Hawthorne's "Tanglewood Tales," for fifth grade; "Miles Standish" and "Snow Bound," for sixth grade; Hawthorne's "Tales of the White Hills," for seventh grade; and "Ivanhoe," "Webster's First Bunker Hill Oration," and "Selections from Whittier, Emerson, Holmes and Bryant," for the eighth grade.

The teachers of the first and second primary and the first grammar and second grammar rooms, assisted by the pupils in those rooms, have been able, through the generous contributions of parents and citizens of the district, to place three valuable libraries in the building without expense to the district, consisting each of thirty volumes of instructive and interesting reading matter adapted to the mental attainments of the pupils in the respective rooms.

In closing we would thank the public for the interest and encouragement they have given, and for their coöperation with us in what we have undertaken.

IRA C. PHILLIPS,
OSCAR E. SMITH,
*Board of Education.*

## REPORT OF TOWN SCHOOL DISTRICT.

The members of the school board are unanimous in the opinion that the past school year has been a prosperous one. The examination exercises in nearly every school indicated, at the least, a reasonable degree of advancement. Labor is valuable only as it produces valuable results. This is as true of work performed by teachers as it is of labor in any other calling.

The faithful teacher who is thoroughly equipped for her duties is the one whose service is always in demand.

We have been fortunate in obtaining good teachers, and it is hoped that nearly all of them will resume their work at the commencement of the spring term.

With two hundred and twenty-two scholars who have attended school not less than two weeks during the year, we have supported eleven schools. Two of these schools have been maintained during the latter part of the year, for the benefit of four pupils in each school.

Though the intent of the present school law was to centralize such schools, its application in every case is not as practicable as could be desired. The four scholars at Ashville could be conveyed to Millville at much less expense, probably, than would be required to maintain a separate school and it is likely some such arrangement will be made.

The location of the school at Turtletown with reference to other schools in the eastern section of the district, would render the task of conveying pupils expensive and unsatisfactory.

The question, "Shall we employ a teacher of vocal music to teach singing in schools where there is enough musical talent to make the effort justifiable, and where the teacher is unable to teach music?" is before the people of the district.

We are in sympathy with any reasonable movement tending to develop a taste for music, believing a short daily exercise

is beneficial, even to those who cannot participate in it. About half of our teachers can teach singing as usually taught in common schools.

Whether or not the voters of the district will make an appropriation for the benefit of those schools not favored with such teachers, is a question to be decided at the annual meeting.

Three or four of our school-houses will need repairs before the commencement of the spring term. It is probable that all necessary repairs will not require more than the average yearly outlay for this purpose.

The amount expended for books and supplies during the past two years has been much above that of the average year, and above what we anticipate for the current school year. The average extra appropriation, together with the amount of money required to be raised by law, ought to meet all our requirements for the coming year.

ALBERT SALTMARSH,
GEORGE T. ABBOTT,
FALES P. VIRGIN.

## TREASURER'S REPORT.

The treasurer of the Town School District, respectfully submits the following statement of the receipts and expenditures for the year ending March, 1900:

RECEIPTS.

| | | |
|---|---|---|
| Balance March, 1899 . . . . | $240.51 | |
| Received from city treasurer . . | 3,391.50 | |
| " " town of Loudon . . | 8.65 | |
| " " Mr. Abbott, tuition . | 2.50 | |
| Total receipts . . . . | | $3,643.16 |

Paid orders drawn by the school board to the following amounts:

| | | |
|---|---|---|
| Paid teachers, including board . . | $2,327.00 | |
| for repairs . . . . . | 219.87 | |
| conveying scholars . . | 52.50 | |
| fuel and incidentals . . | 260.02 | |
