RELATING TO THE AFFAIRS OF THE CITY.

CONCORD, N. H.
THE RUMFORD PRESS
1901.

MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the City Auditor on or before the second day of the month.

If approved by him and by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the City Government.

The regular monthly meetings of the City Government occur on the second Tuesday of each month.

JAMES H. MORRIS,
City Auditor.

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the East Concord sewerage precinct, the sum of one hundred and seventy dollars ($170) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the payment of the sum becoming due in accordance with an ordinance establishing a sinking fund, one hundred dollars ($100).

For the payment of interest that may become due on precinct bonds, seventy dollars ($70).

SECT. 2. This ordinance shall take effect and be in force upon its passage.

Passed March 13, 1900.

AN ORDINANCE IN AMENDMENT OF CHAPTER 21 OF THE REVISED ORDINANCES DEFINING THE SPRINKLING PRECINCT:

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. Said precinct shall include in addition to the territory described in said chapter 21, the following territory: Northerly from the junction of North State and Rumford streets to the main entrance of the New Hampshire state prison on North State street; also that portion of Bridge street beginning at the westerly end thereof at its junction with North Main street, thence extending easterly to the westerly end of the

Loudon Bridge; also that portion of School street beginning at its junction with Holt street thence extending westerly to Giles street; also that portion of Broadway beginning at its junction with West street, thence extending southerly to Pillsbury street.

SECT. 2. Said additional territory embraced within the boundaries described in section 1 of this ordinance shall include all lands abutting on said streets within said boundaries.

SECT. 3. This ordinance shall take effect and be in force upon its passage.

Passed March 13, 1900.

AN ORDINANCE RELATING TO LICENSING PLUMBERS AND THE APPOINTMENT OF AN EXAMINING BOARD.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. No person, firm, or corporation shall engage in, or work at the business of plumbing, either as a master or employing plumber, or as a journeyman plumber, unless such person, firm, or corporation has received a license or certificate in accordance with the provisions of the rules and regulations relating thereto.

SECT. 2. Any person not engaged in or working at the business of plumbing prior to March 9, 1899, and desiring to engage in or work at said business, either as a master or employing plumber, or as a journeyman plumber, in the city of Concord, shall apply to the board of health, and shall, at such time and place as may be designated by the board of examiners, hereinafter provided for, to whom such application shall be referred, be examined as to his qualifications for such business.

SECT. 3. On or before the first day of April, 1900, every master or employing plumber, and every journeyman plumber, engaged in or working at the business of plumbing in this commonwealth, prior to March 9, 1899, and desiring to engage in or work at such business in the city of Concord, shall personally register to his name and address, at the office of the board of health, and state, after being sworn, where and how long he has been engaged in or worked at said business, and whether as a master or employing, or as a journeyman plumber.

SECT. 4. Said board of health, if satisfied that the person so

registered was actually in or working at said business, prior to said date, shall thereupon issue to him a certificate setting forth that he was engaged in or working at the business of plumbing, either as a master or employing plumber, or as a journeyman plumber, as the case may be, prior to the 9th of March, 1899, and authorizing him to engage in or work at said business, either as a master or employing plumber, or as a journeyman plumber. The fee for a master employing plumber shall be $2.00, for a journeyman plumber, $1.00. In case of a firm or corporation, the examining and licensing of, or the registration of and granting a certificate to any one member of the firm or the manager of the corporation, shall satisfy the requirements of these rules and regulations.

SECT. 5. There shall be a board of examiners of plumbers for the city of Concord, consisting of the chairman of the board of health, the city engineer, and a third member, appointed by the mayor, who shall be a practical plumber of at least five years' continued, practical experience next preceding the date of the appointment. Said third member shall be appointed for one year, at the regular meeting in March.

SECT. 6. Said board of examiners shall hold office until their successors have been elected and qualified, and to serve without compensation.

SECT. 7. Said board of examiners shall, as soon as may be, after their appointment, meet and organize by the selection of a chairman, and shall then designate the times and places for the examination of all applicants desiring to engage in or work at the business of plumbing, within the city of Concord. Said board shall examine said applicants as to their practical knowledge of plumbing, house drainage, and plumbing ventilation, according to forms and rules hereafter to be adopted, and if satisfied of the competency of the applicant, shall so certify to the board of health, who shall thereupon issue a license to such applicant, authorizing him to engage in or work at the business of plumbing, in said city, either as a master or employing plumber, or a journeyman plumber. The fee for a license for a master or employing plumber shall be $2.00; for a journeyman plumber, it shall be $1.00; and said license shall be renewed annually, on or before April 1, upon the payment of a fee of $0.50.

SECT. 8. All fees to be paid to the city treasurer.

SECT. 9. This ordinance shall be in force and take effect upon its passage.

Passed March 13, 1900.

AN ORDINANCE IN AMENDMENT OF SECTION THIRTY OF AN ORDINANCE PASSED NOVEMBER 13, 1894, RELATING TO THE FIRE DEPARTMENT.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That section 30 of an ordinance passed November 13, 1894, relating to the fire department is hereby amended by striking out the words Hook and Ladder Truck and Steamer, and inserting the words Chemical Engine and Horses, so as to read as follows: The drivers and horses of the chemical engine and one hose wagon shall at all times be on duty at the Central Fire Station to attend to all fire alarm calls.

SECT. 2. This ordinance shall take effect on its passage.

Passed May 8, 1900.

AN ORDINANCE DEFINING THE RULES AND REGULATIONS FOR THE MATERIALS, CONSTRUCTION, ALTERATION AND INSPECTION OF ALL PLUMBING, HOUSE DRAINAGE, AND SEWER CONNECTIONS.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. The sanitary officer of the board of health shall, in addition to the duties required of him under the City Ordinance relating to public health, be charged with the enforcement of the rules and regulations hereinafter contained, and with the enforcement of all other rules and regulations that may be adopted by the City Council in the interest of public health, and shall perform all other duties of like kind that may be from time to time prescribed by the laws of the state and by the ordinances of the city. Said sanitary officer shall be well versed in matters pertaining to sanitary regulations in testing drainage systems and in making examinations of plumbing work; he shall be of temperate habits and capable of keeping all books and records that shall be required of him, and shall make an annual report to the board of health in accord with

Section 5, Chapter 14, City Ordinance, including in said report a record of plumbing work inspected, number of permits granted, and any other data that in his judgment would be of interest to the public.

SECT. 2. For services rendered the sanitary officer shall receive the sum of one thousand dollars per annum, payable monthly.

SECT. 3. Every person who shall carry on the business or do any work of plumbing in the city of Concord, shall register his name and place of business in the office of the board of examiners of plumbers, and notice of any change in the place of business of a registered plumber shall be immediately given to the board. This section shall not apply to employés while working for a registered plumber.

SECT. 4. Every plumber before doing any work in a building, except the repairing of leaks and the replacing of broken fixtures, such as sinks, marble or slate slabs, earthen or crockery ware, and the opening of obstructed and frozen pipes, and the replacing of leaking traps and their branches, shall file at the office of the board of health, upon blanks for that purpose, a description and sketch of the work to be performed, and no such work shall be commenced without the approval of said board or the sanitary officer.

SECT. 5. The plumbing of every building shall be separately and independently connected with the public sewer, where such sewer is within one hundred feet of said premises, unless permission is given by the board of health or the sanitary officer to connect in some other way. When there is no public sewer the plumbing shall be connected with a private sewer or with a cesspool, of a construction and capacity approved by said sanitary officer.

SECT. 6. The main drain of any building from a point four feet outside the interior face of the foundation wall to a point inside the cellar, shall be of cast-iron of a sufficient size, not less than four inches in diameter, of a weight not less than hereinafter specified. Said main drain shall be carried open up through the roof to a sufficient height, not less than two feet above said roof, and not less than five feet above the top of any window within fifteen feet. Should a water closet be connected with said main drain, the latter shall not be less than four inches throughout its entire length. If no water-closet is

to be connected, the main drain may be reduced inside the cellar wall to not less than two inches in diameter; provided, however, that said main drain is again increased to four inches in diameter before passing through the roof.

SECT. 7. Whenever any drain or ventilating pipe shall be run outside of a building, before going through the roof, all such exposed pipe shall not be less than four inches in diameter. If a second line of pipe is connected with the main drain, said main drain must be increased at the point of such connection to not less than four inches in diameter, and continue to the sewer or cesspool undiminished. All pipes which pass through the roof of any building shall be connected to the roof-flange with a tight joint. Change in direction shall be made with curved pipes, off-sets or bends, and all connections to inclined runs with Y branches. The main drain and all other pipes shall, so far as is practicable, be laid above the floor of the basement or cellar, and be exposed to sight. They shall be properly secured by irons to walls or floor timbers, and shall not be exposed to external pressure where they pass through or under any wall.

SECT. 8. That part of the drain which is outside of the building and more than four feet from the foundation wall, shall be of cast-iron pipe of the same description as that within the building, with lead joints or vitrified salt-glazed earthen pipe with cement joints. It shall be laid, where practicable, in a straight line, with a uniform fall not less than one fourth inch per foot. No house drain or private sewer shall pass under another house or within four feet of the wall thereof, except by written permission of the board of health. Every drain shall have a clean-out at base of stack and at point where main drain leaves building when said drain is not in a straight line from base of said stack, and clean-outs of all kinds shall be provided with screw-caps.

SECT. 9. Rain-water leaders shall never be used as soil, waste, or vent pipes, but shall be carried to a point five or more feet outside of the foundation wall before being connected with the main drain, and the main drain shall be enlarged at the point where the rain-water leader enters it. When rain-water leaders are within the house they must be of cast-iron pipe with leaded joints, or of copper with soldered joints; when outside of the house and connected with house drain, it must,

if of sheet metal with slip joints, be trapped beneath the ground or just inside of the wall, the trap being arranged so as to prevent freezing. In every case where a rain-water leader opens near a window or light shaft it must be properly trapped.

SECT. 10. Soil-pipes shall be of cast-iron and not less than four inches in diameter. Other waste lines shall be of lead, cast-iron, or brass, and of not less than the following sizes, viz.: for wash-basins, bath-tubs, laundry-tubs, urinals, and sinks, not less than one and one fourth inches; for slop-hoppers, not less than three inches. All fittings used in connection with cast-iron pipe shall correspond with it in weight and quality. All cast-iron pipe and fittings to be tar-coated.

SECT. 11. Every building used as a dwelling in which plumbing arrangements are to be placed shall be supplied with a water-closet for every fifteen persons. Each room or stall in which a closet is set shall be well lighted and ventilated, preferably with a window communicating directly with the outer air. No water-closet shall be set in a cellar or basement without permission of the board of health. Every water-closet or line of water-closets on the same floor shall be constantly supplied with water from a tank or cistern, and each closet shall have a flushing pipe of not less than one and one fourth inches in diameter. No pan-closet shall be set. No direct supply closet shall be set unless located outside of the building proper in places where tanks cannot be made secure from frosts, and no such location of closets shall be allowed unless the board has become satisfied that it is impracticable to put closets in the building proper. When direct supply closets are allowed they shall receive their water supply directly from the main fixtures, service pipes, and connections approved by the board of health. In cases where the regulations in regard to water-closets have been fully complied with the construction and maintenance of urinals is optional with the owner of the property excepting that in any special case; when it shall appear necessary either in old or new buildings, the board of health may require such a urinal to be constructed and maintained. When a urinal or urinals are provided all regulations that shall be in force in regard to water-closets shall apply to such urinal or urinals, except as to limit of the number of persons using said fixtures, and also that said fixtures may be supplied with a flushing pipe connected directly with the water main through fixtures, ser-

vice pipes, and connections approved by the board of health. No water-closet shall be encased in woodwork.

SECT. 12. The waste pipe of each and every sink, basin, water-closet, and of each set of trays or other fixtures except bath-tubs, shall be furnished with a separate trap which shall be placed above the floor of the room in which the fixture stands. The waste pipe of each and all bath-tubs shall be furnished with a trap acceptable to the sanitary officer, which shall be placed as near the fixture it serves as is practicable.

SECT. 13. Traps must be protected from syphonage and ventilated by special lines of cast-iron vent pipe not less than two inches in diameter, except round traps five inches or more in diameter serving bath-tubs and wash-trays, and when the delivery pipe from a trap to a line of pipe running through the roof is four feet or less in length, measure to be taken from the centre of the trap to the hub of the fitting on the pipe, running through the roof. The short lines from these branches to each trap, if exposed to view, may be of lead or brass. They shall be two inches in diameter for water-closet traps, and of the same size as the waste pipe for other traps. Vent pipes for water-closet traps when more than thirty feet in length, shall be three inches in diameter. All vent pipes must extend at least two feet above the roof, or they must connect with the soil-pipe above the highest fixture, and in no case shall they terminate in a chimney-flue. They shall be run as direct as possible. Bow venting will not be allowed unless connected in such manner as to prevent pockets being formed. If less than four inches in diameter they shall be enlarged to that size before passing through the roof.

SECT. 14. Local vents of water-closets or urinals, when provided, must not be connected with any vent pipe, but must be carried into a heated flue provided for the purpose, or into the kitchen chimney. The board of health may require a local vent in any special case.

SECT. 15. All cast-iron pipe through which the discharge of any water-closet passes, and all pipe which is buried in the earth inside of any building or runs within four feet of the interior face of a foundation wall of any building, shall be of the description known as the extra heavy pipe. All pipe shall be of uniform thickness, free from all defects, and shall have an average weight per linear foot not less than below specified, viz. :

	Ordinary pipe.	Extra heavy.
Internal diameter, 2 inches	$3\frac{1}{2}$ lbs.	$5\frac{1}{2}$ lbs.
" " 3 "	$4\frac{1}{2}$ "	$9\frac{1}{2}$ "

" " 5 "	8 "	17 "
" " 6 "	10 "	20 "
" " 8 "		$33\frac{1}{2}$ "
" " 10 "		45 "

SECT. 16. All lead pipe used for waste or vent lines shall be of uniform thickness, free from defects, and shall have an average weight per linear foot not less than below specified, viz. :

Internal diameter $1\frac{1}{4}$ inch pipe	3 pounds.
" " $1\frac{1}{2}$ " "	3 lbs. 8 oz.
" " $1\frac{3}{4}$ " "	5 pounds.
" " 2 " "	6 "

SECT. 17. Four inch lead pipe or bends used in connecting water-closets shall weigh not less than eight pounds to the foot. Weight of lead traps shall be as below specified, viz. :

4 inch round traps, not lighter than 6 pounds .	4 inch pipe.
5 " " " " " " 8 " .	5 " "
$1\frac{1}{2}$ " " " " " " 3 " .	$1\frac{1}{2}$ " "
$1\frac{1}{4}$ " " " " " " $2\frac{1}{2}$ " .	$1\frac{1}{4}$ " "

All sleeves used in connecting lead waste and vent pipe to cast-iron pipe shall be of the kind known to the trade as "extra heavy" brass.

SECT. 18. Joints in cast-iron pipes shall be packed with oakum run with molten lead, thoroughly calked and made tight. No joint shall be covered with paint until after the inspection and approval required by these regulations. Joints in lead pipes shall, when practicable, be of wiped solder. Connections of lead to cast-iron pipes shall be made with brass ferules calked to the iron and connected to the lead by wiped solder, or some equivalent device satisfactory to the sanitary officer. All connections of lead to brass shall be of wiped or overcast solder. Joints in earthen pipes shall be made water-tight by means of the best hydraulic cement with which the joints shall be thoroughly filled, and care must be taken that all mortar which comes through into the inside of the pipe is wiped out.

SECT. 19. Waste pipes from safes, refrigerators, and overflows of tanks or cisterns shall empty over sinks, trapped gully-holes, or otherwise as may be approved, but shall not connect with the drainage system, or be allowed to drip on cellar bottoms.

SECT. 20. No steam exhaust, blow-off from a boiler or heating apparatus, shall connect with a sewer, house drain, or any part of the drainage system of the building. Such pipes shall discharge into a suitable tank or condenser, from which a trapped outlet to the house drain may be provided.

SECT. 21. No saddle hub will be allowed on any plumbing.

SECT. 22. The contractor or plumber having charge of the construction, reconstruction or any portion of the drainage system of any building shall, when the work is completed or sufficiently advanced for inspection, notify, in writing, the sanitary officer, who shall proceed to pass upon the work at once, or not later than twenty-four hours of secular time after such notification.

SECT. 23. No part of any drainage system shall be covered up or hidden from view till approved by the sanitary officer.

SECT. 24. All plumbing shall be tested by water pressure test by the plumber in the presence of the sanitary officer.

SECT. 25. The board shall promptly condemn and order removal of any work not done in accordance with these regulations, and when it finds any piece of work properly done and in full compliance with these regulations, it shall issue its certificate to that effect.

SECT. 26. Bad faith in the performance of work under a permit shall be deemed a sufficient reason for subjecting the plumber so offending to a suspension of his license, and every plumber shall be held responsible for the violation of these regulations by mechanics, laborers, and helpers employed by him.

SECT. 27. No permit shall be issued to any licensed plumber during the time that he shall fail to agree to remedy any defective work after the sending of a written notice that he has been held responsible therefor under these regulations.

SECT. 28. Under no circumstances whatever shall verbal permission given by any one whether connected with the government of the city or not, be considered a justification for any deviation from, or violation of, these regulations.

SECT. 29. This ordinance applies only to new work and all modifications, replacements, and extensions of existing work ;

but shall not debar the sanitary officer from making inspections of any plumbing, and of enforcing Sec. 3, Ch. 14, City Ordinance, relating to public health.

SECT. 30. All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed.

SECT. 31. This ordinance shall be in force upon its passage.

Passed July 10, 1900.
