A JOINT RESOLUTION PROVIDING FOR A SALE OF THE CITY'S INTEREST
IN THE CITY HALL BUILDING AND A PORTION OF THE LOT AND FOR
THE PURCHASE OF A NEW LOT AND ERECTION OF A NEW CITY
HALL BUILDING.

Resolved by the City Council of the City of Concord, as follows :

SECTION 1. That the action and report of the special committee appointed under the provisions of a joint resolution passed by the city councils in concurrence January 22, 1901, with reference to a separation of the interests of the city and county in the present city hall building and lot as set forth in their report this day submitted, are hereby accepted, ratified and approved, and that the mayor and president of the common council are hereby instructed to make and execute in the name and behalf of the city an agreement with the county commissioners of Merrimack county, providing for a sale by the city to the county of all the right, title and interest of said city in the present court house building and so much of the land comprised in the court house lot as lies east of the line coincident with the western boundary line of lots conveyed by Susan Stickney to Merrimack county and Richard Bradley to Merrimack county, and extending from Court street on the north of said boundary to Pitman street on the south of said boundary, for the sum of twenty thousand dollars, to be paid by said county to said city ; said agreement to contain stipulations providing that the deed and possession of said property shall not be delivered to said county until said city is provided with a new city building completed for use and occupancy ; that the land belonging to the city and county lying west of the above described line in said court house lot shall forever be kept open as a public park ; that the county in remodeling the present court house building, or in the erection of a new court house building on the same lot, shall provide some suitable room in said building to be used for election purposes by the voters of ward four in said city, upon a reasonable remuneration therefor to be paid by said city to said county.

SECT. 2. That a committee consisting of his honor the mayor, the president of the common council, four members of the board of aldermen to be appointed by the mayor, and three members of the common council to be appointed by the president of the common council, are hereby appointed for the purpose of taking steps toward the selection and acquirement of a suitable site on which to erect a new city building, to be constructed of Concord granite, and also to procure plans and estimates of the expense for the erection of such building.

SECT. 3. Said committee are authorized to incur such reasonable expense as in their judgment may be necessary in securing options on land secured as a site for such building, and in procuring preliminary plans and estimates of the expense of such building, and the city treasurer is hereby authorized to pay all expense so incurred out of funds in the treasury not otherwise appropriated, upon certificate in writing of a majority of said committee, with the approval of committee on accounts and claims endorsed thereon.

SECT. 4. And said committee are further authorized and instructed to procure a suitable site for the erection of such building, and to make in the name of the city all necessary contracts for the securing of such site and to accept deed thereof in behalf of the city, and to take all such steps as may be necessary and convenient for the securing of such site, whether by purchase or condemnation. If the committee so desire, they may refer to the city council the question of the selection of a site, the price to be paid for it, and the manner in which it shall be secured.

SECT. 5. And said committee are further authorized and instructed to employ by fair competition, architects to furnish plans and specifications and supervise the construction of such building, and to make in the name of the city such contracts as in their judgment shall seem reasonable for the erection and furnishing of such building, and the grading and other preparation of the site thereof, all contracts to be let by competitive bidding to the lowest responsible bidder, upon such terms and security as the said committee may deem advisable, all contracts signed by a majority of the committee and authorized by this resolution to be binding upon the city. Said committee shall place upon exhibition all plans and estimates thereon submitted to them in competition, and shall notify all members of the city council of the time and place at which such plans shall be on exhibition, and shall secure from the members of the city council not on said committee an expression of opinion regarding the merits of the several plans submitted, for the assistance of said committee in the selection of plans, and shall from time to time make reports to the city council, for the purpose of keeping said council informed as to the progress made by said committee.

SECT. 6. And said committee are further authorized, if in their judgment it shall seem advisable, to employ some suitable person to supervise and superintend, in behalf of the city, the erection of such building, and to fix the compensation of the person so employed, such compensation to be paid out of the sums appropriated for the purchase and preparation of a site and the erection and furnishing of a city building.

SECT. 7. Said committee are authorized to expend in behalf of the city for the securing of such site, and the erection and furnishing of such building, and the grading and preparation of such site, such sums not exceeding one hundred and thirty thousand dollars (\$130,000), in addition to the sum of twenty thousand dollars (\$20,000), to be received from the county of Merrimack in payment for the city's interest in the present city hall building and land connected therewith, as may be by them deemed necessary and advisable. And bonds of the city in the usual form as required by the city ordinances shall be issued by the finance committee of the city council for such sum not exceeding one hundred and thirty thousand dollars as shall be requested in writing by a majority of said building committee, upon such time and at such rate of interest, not exceeding three and one-half (3 1-2) per cent. per annum as may seem advisable to said finance committee; provided, however, that such bonds shall be of the par value of not exceeding one hundred dollars (\$100) each, and shall be exempt from taxation while owned by residents of the city of Concord. And provided further that in the sale of such bonds the preference shall be given to residents of the city of Concord.

SECT. 8. The finance committee of the city council are hereby authorized and instructed to issue from time to time, upon such time and at such rate of interest as to them may seem advisable, the notes of the city in the usual and legal form, when requested in writing by a majority of said building committee, the total amount of such notes not to exceed one hundred and thirty thousand dollars (\$130,000), said notes if issued, to be paid by the proceeds of the bonds to be issued under authority of this resolution, the finance committee to have full discretion as to the issuance of notes or bonds from time to time for the purpose of raising the funds required by said building committee, within the limitations and upon the conditions hereinbefore prescribed by this resolution.

SECT. 9. And the city treasurer is hereby authorized to pay out of the proceeds of such notes and bonds and the funds to be received from the county of Merrimack, all bills contracted by said building committee under the authority of this resolution upon the written approval of a majority of said building committee.

SECT. 10. No bills in connection with the expenditures authorized by this resolution shall be paid by the city treasurer until approved by the city auditor.

Passed November 12, 1901.

DEPARTMENT REPORTS.

HIGHWAY DEPARTMENT.

REPORT OF COMMISSIONER OF HIGHWAYS

To the City Council:

GENTLEMEN:—In accordance with the ordinance, I herewith submit the annual report of the work and expenditures of the highway department for the year of 1901. Much repairing in general, some permanent improvements and the usual work of the department has made the year a particularly busy one.

GENERAL MAINTENANCE.

The sum of \$18,600 was appropriated for general maintenance this year, but this amount does not seem sufficient to meet the numerous expenses which must be taken from the appropriation. The streets are in bad condition generally and need a good deal of repairing. Beside the trimming of shade trees, the care of ice and snow and sanding walks does not keep the roads in repair in any way, and while the expense is considerable it does not show after the ice and snow are gone. Of course the month of December is very uncertain in regard to expense. This year we had a severe storm December 3 and 4, which was followed by a thaw, and the expense of this one storm was \$621.13, which shows that if we have many storms in the year serious inroad is made on the appropriation for general maintenance.

The shade trees of our city are dying fast and the department has been requested to remove a large number of dead trees the past season. Most of the shade trees need trimming badly and it will require quite a little expense. I think there should be a separate appropriation for removing and trimming trees, for the amount expended in that direction does not show in the street repairs.

Most of the bridges in the city are in good condition. Two new ones will have to be built across the Soucook river, one on the Sheep Davis road, so called, and the Thompson lower bridge, which was washed away two years ago and has never been rebuilt. The town of Pembroke has not been ready to rebuild, but I understand that they will be ready to build both bridges next season. East Concord bridge has been replanked and the Sewall's Falls bridge repaired this year. The Loudon bridge will need painting next summer.

Not many new streets have been granted this year. Stone street, at the south end, was granted and put into passable condition, and a small outlay another season will make it a good street.

A change of grade on Pitman street was granted last year, but the work was not done until this. After the street was cut down it was found to be unsatisfactory, and a petition to have the grade reestablished was granted. The street is now in satisfactory condition.

By the new layout of the Concord Street Railway, granted by the city government, a new track was laid to the Concord State Fair grounds, which added quite an expense to this department for putting the street back into good condition. Should the railroad broad gauge its line next season it will call for more street repairs. The work of putting in the new electric railway on Hall street was begun late in the fall and a large amount of grading done. When the railroad completes the work in the spring I think the street will be in better condition than ever before.

The track of the street railway from West Washington street to Pine at the west end was moved into the center of the street, which made it grade Centre street. The expense was \$617.29, and we now have a street sixty-five feet wide, which is a great improvement.

The highway department has had eight horses at the city stable, which have for the most part been taken from the fire department after they were beyond service there. On coming into office in February I found that two of the horses were useless, and we killed and buried them. Later on

another became useless and that was killed also. Two more will soon be beyond service, and it will then be necessary to purchase some new horses for use in the department.

CLEANING STREETS.

The amount appropriated for cleaning streets was hardly sufficient this year, and although the changing from one method to another may have made some difference in the expense I would recommend that the appropriation be increased. The following ordinance relating to the removal of garbage was passed in April, 1901 :

NOTICE.

A RESOLUTION RELATING TO THE REMOVAL OF GARBAGE.

Resolved by the Board of Mayor and Aldermen :

That for the improvement of the sanitary condition of the city and for the convenience of the people residing in the central portion thereof, the Commissioner of Highways is hereby authorized and instructed to cause the city teams to collect and remove all waste material and garbage at least once in three weeks, in all seasons of the year, when practicable, within the following limits: Commencing at the point where Penacook street intersects with the Boston & Maine Railroad, thence by said Penacook street to North State street; thence by North State street to intersection of North State street and Rumford street; southerly through Rumford street to Beacon street; westerly through Beacon street to White street; southerly through White street to Washington street; westerly through Washington street to Centre street, to Park Ridge, Park Ridge to Giles; southerly through Giles to Warren; westerly through Warren to intersection of Warren and Pleasant; thence easterly through Pleasant street to South Spring street; thence southerly by South Spring street and Avon street to South street; thence southerly by South street to Pillsbury street; thence easterly by said Pillsbury street and the line of said street extended to the Boston & Maine Railroad; thence northerly by the Boston & Maine Railroad to the point begun at, including all streets that are within the territory herein bounded.

All such work shall be done in accordance with such rules and regulations as the Superintendent of Streets shall prescribe.

We began the work by starting one garbage team at each of the two extreme limits, both teams working towards the center of the city each day excepting Wednesdays, when both collect in the central portion, and going over the district once in two weeks. The ordinance requires collection only once in three weeks, but the department finds it can cover the territory in two, and if residents would please be careful not to put the garbage out oftener than once in two weeks it would assist the department greatly. Of course the amount to be collected varies considerably each time, so that often we are not able to reach each street on exactly the same day of the week, but the time will vary but a little. The whole system of collecting garbage has been re-arranged, and in another season the department hopes to give better service.

CATCH BASINS.

An appropriation of \$1,500 this year for catch basins was sufficient. The usual amount of repairing has been done, new basins built, and all thoroughly cleaned.

SIDEWALKS AND CROSSINGS.

Considerable repairing of concrete walks has been done the past year, and all new concrete walks granted by the city government have been laid excepting the one at the Dewey school, and the petition of G. H. Rolfe, which was granted too late to be constructed this season. In Penacook, a walk 1,800 feet in length was constructed on Merrimack street. It makes a fine walk from the railroad station to the village, and is a great improvement over the gravel walk, which was in very bad condition in wet weather.

PERMANENT WORK.

The amount appropriated for permanent improvements was \$10,000. The demand for general repairs was such that it was found necessary to keep back a portion of this amount for use under general maintenance in case of severe storms, and therefore we were not able to do as much in the line of permanent work.

A petition for macadam on Warren street was presented to the city government and granted. About two thirds of a mile, twenty-four-foot roadway was built from Spring street to Fruit at an expense of \$3,839.32, and we now have a good macadam road from Spring street to the "Monument." This road is used a great deal for pleasure riding especially, and it should be extended from the "Monument" to St. Paul's School.

Another piece of macadam, twenty-four-foot roadway 773 feet in length, was put in on South State street from West to Main at an expense of \$1,186.59. This class of macadam, such as Warren and South State street, can be built for about \$7,000 a mile.

The macadam on the Penacook road which was put in five years ago has stood the wear well, and nothing has been expended for repairs. On account of the large amount of travel over this road, I think it would be well to extend this both toward West Concord and Penacook from the piece now in.

North Main street from Centre to Pitman has been in such bad condition for several years that the city government voted to concrete that portion west of the street railway track. The expense was \$1,836.36, and we now have a very good street there.

Quite a little grading has been done on North State street with stone chips from the stone sheds. This makes a very good road for the money expended, especially where there is considerable heavy teaming.

The stationary crusher on Rumford street, which has been in use some twenty years, is in bad condition, and a new engine ought to be purchased before another season. The inspector's report of the condition of the boiler was unsatisfactory. He reports that it cannot be run with a pressure over sixty pounds, and we find that is not sufficient to run the plant. The matter of purchasing a new engine was considered by the committee on roads and bridges, and they thought it advisable to purchase, but the season's work was

so nearly done that the subject was given up. Quite a little will have to be expended in repairing both crushers and the steam roller next year.

SPRINKLING.

The street sprinkling precinct was extended the past season and two sprinklers added. There is still a call to have the precinct enlarged another season, which if done will require more sprinklers. The department now has thirteen sprinklers, which have all been repaired and painted, and are now ready for use.

IN GENERAL.

Early in the year the city purchased a lot for the highway department which is proving a good investment, for the city needed the gravel and a place to dump ashes. It seems to me that it is an advantage for the city to purchase a gravel bank rather than to buy by the load.

The call for macadam roads is increasing each year, and it seems it would be wise for the city to hold a portion of their quarries at West Concord, for there will be need of this class of material in a few years, as the present supply for macadam will soon be exhausted.

The city government voted to send the commissioner of highways to the annual meeting of the American Society of Municipal Improvements held at Niagara Falls the first week in October. It was a very interesting meeting, and the subject of good road building was quite freely discussed. The speakers taking the more active part in the discussion were from cities where good road building is done on an extensive scale and large amounts expended in their construction; but many useful ideas were advanced which would be a benefit to cities of our size.

I would call the attention of the city government to the dangerous condition of the roofs of the Baptist church on State street, the Warren-street side of the Baker Memorial, corner State and Warren, and the Spring-street side of the

brick tenement house, corner Spring and School. The accumulation of snow slides off these roofs during thaws, and there have been several narrow escapes from serious injury. The owners of these pieces of property should be requested to do something for the protection of the public.

In closing, I would express my appreciation of the interest taken in this department by the mayor and the members of the city council, and the courtesy extended to it by all departments of the city.

Respectfully submitted,

ALFRED CLARK,

Commissioner of Highways.
