MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract such liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county poor account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government.

The regular monthly meetings of the city government occur on the second Monday of each month.

ARTHUR E. ROBY,
City Clerk.

INAUGURAL ADDRESS
OF
HENRY E. CHAMBERLIN
January 24, 1922

Gentlemen of the Board of Aldermen:

We meet at this hour in accordance with the provisions of the city charter to take the oath of office for the faithful performance of duty and to assume the responsibilities intrusted to us by the people of Concord.

I wish to express my deep appreciation of the honor conferred by my election to the office of mayor for a second term and I am aware of the great responsibility that rests upon me. It will be my endeavor to conduct the affairs of the office in such manner as to merit the confidence placed in me.

Equal responsibility is yours in the conduct of municipal affairs. The management of city business requires as careful consideration as that of any private enterprise, for successful management carries with it difficulties which are unknown in private business. It is our duty to give to the city our full measure of thoughtful, energetic service, conducting the business on business principles, subordinating every partisan interest and refusing to give consideration to petty or sectional demands when not justified upon the ground of common welfare.

I believe that one great factor in our success would be co-operation and confidence in the motives and principles of one another. I believe that the board of public works should keep in closer contact with the departments under

their supervision and obtain first-hand information in regard to them.

In my inaugural of two years ago I hesitated to express my views on certain municipal affairs which I had formed after serving two years as an alderman and seventeen years as city clerk, for the reason that I had not then studied them as mayor. During the past two years I have endeavored to study affairs from that angle also, and whatever opinions I have formed and whatever suggestions I may make are the result of careful consideration and not the result of favoritism or animosity toward any department of the city.

We are living in a progressive age and the demand for modern methods is insistent, but we must be guarded in our expenditures and live within our reasonable means. Our taxpayers do not expect us to be niggardly, neither do they desire extravagance nor waste. In these times when Federal taxes are necessarily high it behooves us to strive in every way to lift all possible burdens from the tax and rent payer. I would not have you infer that I am inclined to be pessimistic, but I do believe that our city has been too optimistic and has permitted expenditures to increase out of all proportion to the increase of both population and valuations. For a period, at least, we should proceed more nearly on a pay-as-you-go plan, avoiding as much as possible any increase in our interest charges, especially at the present high rates. We cannot expect to draw new industries or solve the housing problem unless we have an average tax rate which is attractive.

The board of assessors is one of the most important departments of the city and they are subject to certain tax laws. To adjust real estate fairly and impartially requires good judgment, and I believe that the efficient work of our board of assessors has done much to keep our tax rate as low as it has been.

The municipal funded debt is as follows :

City Hall bonds	\$67,000.00	
State Library bonds	15,000.00	
Bridge bonds	62,000.00	
Cemetery Trust Fund note	52,176.43	
		\$196,176.43

Precinct funded debt :

Water Works bonds	\$335,000.00	
Sewer bonds	58,000.00	
		393,000.00

Union School District bonds	\$159,000.00	
School District No. 20 bonds	4,800.00	
		163,800.00

Total		\$752,976.43
-------	--	--------------

At the beginning of 1920 our total debt was \$866,976.43, so the present debt shows a decrease of \$114,000 in the last two years. The bonds to be paid in 1922 are as follows :

City Hall	\$7,000.00	
Bridge	4,000.00	
Sewers	4,000.00	
Union School District	10,000.00	
School District No. 20	500.00	
		\$25,500.00

For the past few years we have been reducing our debt from \$30,000 to \$50,000 each year and I hope that we may continue to do this rather than increase the debt. To mortgage the future to pay for the present is a poor policy. Borrowing money with which to meet current expenses should be avoided and if we incur debt for improvements we should use wise discrimination when such is proposed.

We have a well regulated and well equipped police department. We do not have a force large enough to cover the whole territory of the city and I would recommend that the committee on police and license in conjunction with the city marshal devise some method of patrolling whereby a larger territory might be covered, which I think could be done without impairing the present efficiency. I have found the police officers generally attentive to their duties and I think they may be depended upon to perform them without fear or favor and at the same time with an observance of courtesy and the consideration to which every citizen is entitled. I believe that all traffic laws should be enforced. As traffic regulations vary so widely in different cities and states, the enforcement requires tact and good judgment on the part of the police officers and I trust that while requiring obedience to our laws, they may be enforced courteously for such conduct helps to establish the good name of our city.

In regard to the fire department, I am still of the opinion that for a city of our population and area we have a modern department and one that is fairly well equipped. In the last few years we have had several serious fires which have apparently been efficiently managed, for if they had not been the fire loss would have been much greater. I think that the firemen are attentive to their duties and doing their work efficiently. I believe that a younger man should be in line for promotion and training so that in the event of the retirement of the present chief there would be some one familiar with the work of the department. He should understand the fire alarm system, the management of men, both in the stations and at fires, and have knowledge of fire conditions in the business section, the various public buildings and school houses. Without doubt motor driven apparatus adds to the efficiency of the department and whenever more is purchased it should be of that type. Should con-

ditions require considering any reorganization of this department I will make it the subject of a special message to the board.

Sanitary conditions in Concord compare favorably with those of other cities and the cost of maintaining the department is well under that of cities of similar size. We are fortunately situated in many ways for healthful living conditions. We have a splendid supply of pure water and good milk and plenty of recreation spots, all of which contribute to the good health of the community. Fortunately we have had no serious epidemics during the last two years. We are still without a contagious disease hospital and I would recommend that arrangements be made with the Margaret Pillsbury Hospital trustees for the enlargement of the Foster ward at that institution. The city might finance such undertaking, leaving the supervision with the hospital authorities, but I think that admission to the contagious ward should be through the board of health as they have control of communicable diseases. I hope this matter may have early consideration from the board of aldermen. Tuberculosis and venereal disease clinics have been established in Concord by the Federal and State governments, the room being furnished by the city. These clinics, together with the medical inspection in our schools, the co-operation of the Red Cross, District Nursing Association and Charity Organization Society, are of very great assistance to the sanitary officer in the work of his department.

We are fortunate in the number, size and location of our public parks and playgrounds, for nearly every section of the city has an attractive recreation spot within a short distance. The beautiful lot of land of about twenty acres in Penacook which was presented to the city in 1921 by Mr. Abial W. Rolfe is a valuable addition to our city. This is named Rolfe Park to perpetuate the name of an early settler in that part of the city, adding another to our city memorials recalling such former citi-

zens as White, Rollins, West, Pecker, Doyen, Kimball, Kent and Fowler, besides those whose names are carried by our schools. Being the gift of a personal friend and acquaintance of many years it was with much pride that I could record the addition of this park during my first administration. I hope that some plan will be worked out by the committee on playgrounds whereby a beginning may be made toward permanent improvements on this piece of land. Having all the playgrounds under the supervision of one committee has been an advantage, both as regards permanent improvements and the results obtained in supervision. The creditable performance given at the end of the season indicates interested, careful work on the part of those in charge and there can be no doubt of the great benefit derived from the public playground. An increased appropriation would make it possible to provide a new bath house at the river if the public bath there is continued, and there should without doubt be an instructor for the safety of those using the public bath.

The matter of a suitable memorial to the World War veterans has been discussed considerably and it seems to be the desire of the Legion and the citizens in general that the memorial be in the form of an athletic field. There is a possibility that the swimming pool proposition which was brought up last year might be considered in connection with the athletic field. While I believe that we should erect a memorial, I am of the opinion that we should proceed with caution and judgment in regard to it in order that the work may stand the test of time and forever remain a true memorial. With limited appropriations the park commissioners and the superintendent have kept our parks in a very creditable condition and they are an attractive feature of our city.

During the past two years there has been nothing done in the way of permanent work by the city highway department. The only pieces of permanent construction

were a section of macadam on the Hopkinton road at Dimond Hill in 1920 and 962 feet of cement and 17,000 feet of macadam roadway on the Loudon road during the past season, all of them being built by the state highway department. It is important to keep the roads that have been permanently improved in repair and I think it should be the policy of the department to do this and also to do something in the line of permanent construction each year. Even following such a policy it will be difficult to keep our highways in condition to meet the demands of traffic. I wish that there might be some solution of the sprinkling problem on Main street through the business section. The number of automobiles parked at the curb and the traffic through the street make sprinkling impossible. I am not entirely satisfied with the material used as a dust layer. The condition of the street so treated after a rain is far from satisfactory and the work required to repair the surface apparently exceeds the cost of sprinkling with water. There is a movement being made by the state highway department to change the road at the Soucook river bridge where a number of accidents have occurred. The change would eliminate several bad curves and reduce the grade. It would require the construction of a new bridge and would probably cost the city about \$15,000, the Federal and State governments also bearing a portion of the whole expense. The amount of garbage collected is increasing and the cost correspondingly. I have noticed that there is a tendency among the citizens to put out for collection by the department large quantities of brush. The ordinance says that "no brush, old lumber, or other similar things which cannot be placed in a receptacle shall be put into the highway." Either the ordinance should be amended or it should be enforced as it now stands.

There is a petition before the board of public works for the extension of the sewer on Clinton street, which they have recommended to the full board should be

built. Petitions for sewer extensions in other localities have also been presented that for health and other benefits should probably be granted.

The water-works, one of our most valuable properties, is in excellent condition and well managed. It is steadily paying its indebtedness and also making the necessary improvements each year to keep it up to date.

The appearance of all of the cemeteries in Concord shows that the money appropriated is wisely expended. Last year the construction of a new iron fence at the Old North cemetery on Bradley street was the beginning of an improvement that I hope may be continued another year. The heating plant installed in the waiting station at Blossom Hill has proved a great convenience, both to those visiting the cemetery and the superintendent, as it has made it possible for him to have an office there. The superintendent and his assistant are to be complimented on the well kept condition of Blossom Hill, which is a most beautiful spot.

During the summer it was my privilege to view our city from the air and the first thing to attract my attention was the great number of trees in business and residential sections as well as in the outlying districts. Visitors to our city are impressed with the beauty of our shade trees and we should take reasonable pride in preserving any feature of our city that is a credit to it. We expend in the care of trees less than many cities of smaller size having fewer trees. The tree warden has had many years' experience in caring for our trees, and their splendid condition indicates careful and judicious expenditure of the appropriation.

In our public library we have an example of an efficiently directed department, keeping within its appropriation and at the same time serving the public well. This is to the great credit of the librarian and her assistants and also to the trustees who take much interest in the library. In the death of Judge Walker, who had

served as president of the board of trustees for many years, the library lost a valuable friend. He was deeply interested in its welfare and gave much of his time to further its interests. He had hoped that at some time there might be a beginning made toward a new library building by setting aside a certain sum each year. We have outgrown our present library building and I hope that we may have a new one before many years.

I would recommend that appropriations be made as usual for the hospitals, the Charity Organization Society, District Nursing Association, Memorial Day and band concerts.

Taking all things into consideration, I think that the city departments are in general well managed. A former mayor expressed a thought in regard to them that I feel is worth repeating. "An unvarying courtesy toward one another and a generous hospitality toward strangers will be very helpful. Nothing characterizes a city more favorably than gentlemanly and obliging conduct in its officers and employees and I earnestly invoke the heads of all departments to insist upon decorum and politeness on the part of every employee of the city."

I believe that we should have more community spirit. The work of the Concord Chamber of Commerce is along this very line and they are creating a spirit of co-operation in this city whose value cannot be over-estimated. To have a municipal Christmas tree is a splendid custom, but we have gradually, year by year, lost interest until now only a few participate in the exercises. The Armistice Day service called forth a splendid audience to show their respect to the ideals and sacrifices of the manhood of this country in the World War. It would indeed be a pity if we allow ourselves to forget the spirit that called us on that day. If we hope to ever return to the more normal life that we were living before interrupted by those few years of stress and strife, we need to pause and consider how we are living at the present time. I

believe we shall find that we need more co-operation in our business life, more thought for one another in our social life and more religion in our moral life.

With us, as the servants of the people, rests the responsibility of conducting the affairs of the city to the very best of our ability and the measure of success with which we meet will depend in a greater degree than the citizens of this community realize upon their co-operation and interest in the welfare of the city.

ORDINANCES AND RESOLUTIONS.

PASSED DURING THE YEAR ENDING JANUARY 9, 1922.

CITY OF CONCORD—ORDINANCES.

AN ORDINANCE PROVIDING FOR FIRE PROTECTION.

*Be it ordained by the Board of Aldermen of the City of Concord,
as follows:*

SECTION 1. No person, firm, or corporation shall have in any building, or upon any premises or other place, or in or about any highway or way, whether used as a public or private thoroughfare, in close proximity to any building or buildings, any combustible or explosive matter or dangerous accumulation of rubbish, ashes, or accumulation of waste paper, boxes, shavings, or other inflammable material, which is so situated as to be a fire hazard.

SECT. 2. No person, firm, or corporation, shall obstruct any fire escape, stairs, passageway, door, or window, of any building, in such manner as to interfere with the operations of the Fire Department, or egress of occupants in case of fire.

SECT. 3. No person, firm, or corporation shall place ashes in any wooden container, which is in contact with any wooden surface within any building.

SECT. 4. No person, firm, or corporation, shall keep or permit to be kept, in or about any building, any oily waste or oily rags, unless, when not in actual use, such oily waste or oily rags are kept in a self closing metal container with riveted joints, no part of the body of said container to be within five inches of any inflammable surface.

SECT. 5. It shall be the duty of the Chief of the Fire Department to inspect, or cause to be inspected by such officers or members of the Fire Department as he shall designate, as often as he shall deem necessary, all buildings, premises, and public and private thoroughfares, and cause to be corrected any conditions liable to cause fire, or any violations of the provisions of this ordinance; said inspection shall be made at least once each month within the limits beginning on the main track of the Southern Division of the Boston and Maine Railroad, at a point in the center line of Centre Street extended easterly;

thence westerly by the centre line of said Centre Street extended and of said Centre Street, to the centre line of North State Street; thence southerly by the centre line of North and South State Streets to the centre line of Fayette Street; thence easterly by the centre line of said Fayette Street to the centre line of South Main Street; thence southerly by the centre line of South Main Street, to the centre line of Concord Street; thence easterly by the centre line of Concord Street extended easterly, to the south bound track of the Southern Division of said Boston and Maine Railroad; thence northerly by said track to the point of beginning.

SECT. 6. Whenever the Chief of the Fire Department or any officer or member of the Fire Department designated as aforesaid, shall find any violation of the provisions of this ordinance, the Chief of the Fire Department shall by notice in writing, delivered to the tenant or occupant, and owner of such building or premises, immediately order the removal of the fire hazard, or the condition corrected, within such time as he shall designate in said order and such order shall be complied with by such tenant or occupant, and owner. In case a condition contrary to the provisions of this ordinance is found in a public highway, alley or way, the Chief of the Fire Department shall immediately give written notice to the Superintendent of Streets, who shall forthwith remove such condition.

SECT. 7. The service of any order of the Chief of the Fire Department upon any tenant or occupant, and owner of any building or premises to whom it is directed, shall be made, by delivering true copies of said order to such tenant or occupant, and owner, if within the jurisdiction of the officer making the order, otherwise, by mailing true copies of said order to the said tenant or occupant, and owner, at their last known post office address.

SECT. 8. All tenants, occupants, and owners of buildings or premises, shall permit the Chief of the Fire Department, or officers or members of said Department designated by him, to inspect at any reasonable time, their buildings or premises, for the purpose of carrying out the provisions of this ordinance.

SECT. 9. The Chief of the Fire Department shall keep a record of all inspections, and a copy of all orders issued by him, on forms provided for that purpose, which shall remain on file and of record, in the office of the Chief of the Fire Department. He shall also report monthly to the Board of Aldermen the street number, name, or location of the building inspected together with the name of the person making the inspection.

SECT. 10. Any person, firm, or corporation, failing to comply with the order of the Chief of the Fire Department, shall be fined not more than \$20.00 for each offense, and each twenty-four hours of maintenance of prohibited conditions, shall constitute a separate offense.

SECT. 11. All ordinances or parts of ordinances inconsistent with this ordinance, are hereby repealed.

SECT. 12. This ordinance shall take effect upon its passage.
Passed February 14, 1921.

AN ORDINANCE RELATIVE TO THE SALARY OF THE CITY SEALER.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

RESOLUTION TO EXEMPT FROM TAXATION FOR A PERIOD OF TEN
YEARS, CERTAIN NEW BUILDINGS AND MACHINERY OF THE
RUMFORD PRINTING COMPANY.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That, whereas, a resolution was passed March 29, 1916, by the Board of Aldermen exempting for a period of ten years certain new capital of the Rumford Printing Company, as follows:

“That the Rumford Printing Company is hereby exempted from taxation for a period of ten years from the date of the passage of this resolution upon new capital invested in an extension of its business to be carried on in the Prescott Piano Factory Building, so-called, located on North Main Street.”

And, whereas, another resolution was passed March 26, 1920, providing for further exemption as follows:

“SECTION 1. That the Rumford Printing Company or its successors, is hereby exempted from taxation for a period of ten years from the date of the passage of this resolution, upon new buildings to be erected on land owned by said Company, bounded by North Main, Washington and Pearl Streets, and

from taxation on new machinery to be installed therein, and also upon new buildings to be erected for storage purposes on land of said Company, fronting the railroad, south of the Ford Foundry property: provided, however, that during said ten years, said Rumford Printing Company or its successors shall pay taxes, to be levied on the present assessment valuation, upon buildings which may be razed to provide for the erection of said new buildings."

And, whereas, the greater portion of the former so-called Prescott Piano Factory, located on North Main Street, was destroyed by fire on June 23, 1921, necessitating radical changes in the building and extension plans of the Rumford Printing Company, and as future new buildings with necessary new mechanical equipment are to be erected on the site of the former Ford Foundry, now the property of the Rumford Printing Company, located on Ferry Street, fronting the railroad, and also on land adjoining the former Ford Foundry property, known as the State Lot, fronting the railroad, the exemptions instanced above will become inoperative, therefore be it,

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the Rumford Printing Company, or its successors, is hereby exempted from taxation for a period of ten years from the date of passage of this resolution upon new buildings to be erected on the Company property, formerly the site of the Ford Foundry Plant, and also on Company property formerly the State Hospital coal shed site, and from taxation on new machinery to be installed therein, together with such machinery as had been installed in the former so-called Prescott Piano Factory buildings on the North Main Street site as shall be moved to and become a part of the equipment of the new plant to be erected on the former Ford Foundry and State Lot sites fronting the railroad.

SECT. 2. That nothing in the above exemption shall be construed to exempt from taxation the present mechanical equipment now located in the Depot Street plant now and heretofore subject to taxation.

SECT. 3. The resolutions passed March 29, 1916, and March 26, 1920, relating to certain exemptions on property of the Rumford Printing Company are repealed upon the passage of this resolution.

SECT. 4. This resolution shall take effect upon its passage.
Passed July 11, 1921.

RESOLUTION AUTHORIZING THE ISSUE OF TWO HUNDRED SEVENTY
THOUSAND DOLLARS OF CITY OF CONCORD, N. H., WATER BONDS
TO REFUND TWO HUNDRED SEVENTY THOUSAND DOLLARS OF
FOUR PER CENT. BONDS MATURING JANUARY 1, 1922.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That for the purpose of paying the two hundred seventy thousand dollars (\$270,000) of water bonds of the City of Concord issued January 1, 1892, and to refund the same under authority of and in compliance with Chapter 129 of the Laws of 1917, the city borrow the sum of two hundred seventy thousand dollars (\$270,000) and issue bonds therefor; that the mayor and city treasurer be, and hereby are, authorized and directed to make and execute, sign and affix the seal of said city thereto for the sum of two hundred seventy thousand dollars (\$270,000) substantially in the form prescribed by Chapter 43 of the Laws of 1895. Said bonds to be two hundred seventy in number and for the sum of one thousand dollars (\$1,000) each, to be dated January 1, 1922, and to be made payable to the bearer with interest coupons attached, bearing interest at a rate not to exceed five per cent. per annum, payable semi-annually on the first day of January and the first day of July in each year. The principal of said bonds and the interest coupons attached, to be made payable at maturity upon presentation to The National Shawmut Bank of Boston, Massachusetts, or at the office of the city treasurer, Concord, N. H. Said bonds to become due and

payable serially, eighteen thousand dollars (\$18,000) to be payable on the first day of January, 1923, and eighteen thousand dollars (\$18,000) on the first day of January of each succeeding year until and including January 1, 1937.

The city treasurer is hereby instructed and empowered to procure proposals for the sale of the bonds hereby authorized, and whichever bid is for the best interest of the city shall be accepted by him, provided the same shall be approved by the Finance Committee, reserving to the Finance Committee the right of rejecting any or all bids.

Passed November 14, 1921.
