REPORT OF THE TRUSTEES.

To the Mayor and Board of Aldermen of the City of Concord, New Hampshire:

The Trustees of the Public Library herewith transmit the annual report of the librarian, showing in outline the work of the year.

It is evident on inspection of the working conditions that the library is operated with the utmost economy and efficiency.

For several years prior to 1920 the number of books added ranged from 885 to 1,125, but the number added in 1920 was only 717, and in 1921 only 500. The number should be brought up to 900 or more in 1922.

The general upkeep and care of the rooms and books has been kept at the lower limit of cost during the period of the high cost of living, and some additional expense is necessary during the present year.

In view of these conditions, the trustees voted to ask the Mayor and Board of Aldermen to appropriate the sum of \$7,500 for the support of the library for the present year, instead of \$7,000 which was appropriated for the year 1921. The trustees feel that this sum, with an additional income from the Benjamin Kimball Fund of from \$200 to \$300, is the smallest amount possible for creditable and efficient conduct of the library.

Respectfully submitted,

THOMAS W. D. WORTHEN,
President of the Board of Trustees.

February 7, 1922.

REPORT OF THE CITY LIBRARIAN FOR 1921.

To the Board of Trustees of the Concord Public Library:

GENTLEMEN: My annual report, which is now chiefly a matter of statistics made out according to the recommendation of the New Hampshire Library Commission, is herewith presented.

The financial statement is as follows:

RECEIPTS AND EXPENDITURES, 1921.

RECEIPTS.

Balance from last year,		\$14.83
Appropriation,		7,000.00
Interest:		
Cogswell,	\$85.90	
Lyon,	40.00	
Pierce,	40.00	
Valpey,	20.00	
Hazeltine,	133.00	
Jones,	22.00	
S. C. Eastman,	50.00	
Chase,	42.50	
		433.95
Fines,		376.00
		\$7,824.78

EXPENDITURES.

Salaries and labor,		\$4,853.72
Books and periodicals,		1,265.37
Binding,		323.00
Fuel and light,		869.84
Printing,		110.50

Incidentals,	\$381.96
Balance on hand,	20.39
	<hr/>
	\$7,824.78

Next to this statement as to what money we have had and what money we have spent, comes, logically, a paragraph as to our supply of books. First, let it be realized that their continued high cost makes it impossible to buy all the desirable new books or to replace worn-out ones. During 1921 we have added only 600 volumes.

At the beginning of 1921, in library,	33,154 vols.
Added by purchase,	500
Added by gift,	64
Added magazines,	36
	<hr/>
	600
Discarded,	95
	<hr/>
Net additions	505 vols.
	<hr/>
Now in library,	33,659 vols.

The fact that so many books are no longer in the library, because they have become out of print or because they have become prohibitive in price, makes our shelves much depleted, especially in the line of fiction, and our staff find it increasingly difficult to fill borrowers' cards. In a modern library building, access to the stack-room is accorded patrons who then take what they find, and the assistants' time and strength have not been wasted in hunting for volumes with which the library is no longer supplied.

Eight hundred and four new borrowers have registered in the past twelve months, but of course customers are continually slipping away from us through death, removal from town or absorption in other things.

It is now generally conceded that statistics of circulation are not the chief thing by which to estimate a library's value to the community; still, it is gratifying that in 1921 we gained a few hundred, the number of volumes given out being 78,367. For the first time in half-a-dozen years, we have estimated our circulation by classes, and we find that the reading taste in Concord has not altered appreciably. Magazines are next to story-books in popularity. We have noticed that we give out more books in modern Greek and in Italian than formerly; we are not daunted by a request for works in foreign languages, however, as we can acquire them by means of Mr. S. C. Eastman's bequest for that purpose.

We do a creditable amount of inter-loan business, sending a good number of volumes to smaller libraries and asking for a few from Manchester and Boston for our own borrowers.

To have our School Street hall continuously beautified by exhibits from the Library Art Club is now a regular part of our program.

The deposit stations continue in East Concord, West Concord and Penacook. In addition we have placed, at the request of teachers and librarian at the Senior High School, 75 books in the Spring Street building, for the convenient use of its pupils. This experiment is reported as having worked beneficially enough to make it worth repeating the next semester.

This brief account of the past year at the library gives no idea of the countless interesting things which happen within its walls to put fresh zest into those who have long done its work.

During last July and August we tried a Vacation Reading Club for boys and girls from eight to fourteen years of age. This closed with a party, and with prizes for those who had read the most books and reported upon them intelligently.

Your librarian has spoken at library meetings and institutes in Massachusetts and Vermont, and at Women's Clubs, usually on some topic connected with recent publications, and her aim is to stimulate acquaintance with worth-while literature.

The library has lost the valued president of its Board of Trustees in the passing away of Judge R. E. Walker, who held that office from 1903 to January 1, 1922, when his death occurred. Prior to being its head, he was a member of the board for two years. There have been so many tributes to his uprightness, to his fine judicial mind and to his sterling worth, that little remains to be said now; but I want to add that our staff had every reason to like and respect him. He was a man loyal to any cause with which he had connected himself; he responded readily and ably when turned to for advice, and looking back through the years I recall how he always spoke the wise word when, at any of our slight troubles, he was called, in consultation. We felt that, in his quiet way, he really cared for the library and had its prosperity at heart.

Respectfully submitted,

GRACE BLANCHARD,
Librarian.

REPORT OF THE CITY ENGINEER.

To the Board of Aldermen:

GENTLEMEN: The twenty-ninth consecutive annual report of this department is herewith submitted.

The expenses of this department for the year 1921 were as follows:

Paid engineer and assistants,	\$4,204.50
for supplies,	100.77
transportation,	52.41
real estate transfers,	25.95
telephone service,	36.85
incidentals,	4.17
Total,	<hr/> \$4,424.65
Appropriation,	\$4,725.00
Expended,	4,424.65
Unexpended balance,	<hr/> \$300.35

SEWERS.

The work done on sewers will be found in detail in the report of this department to the Board of Public Works, and published as a portion of their report.

WATER-WORKS.

Elevations were taken and batters set for a retaining wall on Hutchins Street, West Concord.

Two skeleton maps showing the pipe lines, gates, hydrants, branches and other underground construction of the works were made on mounted paper for the superintendent of the works. Blue prints of the Penacook sec-

tion were made and delivered to the superintendent. The sheet plans of pipe lines and appurtenances were brought up to date, and a mounted paper plan of Penacook Lake and land adjoining, owned by the city, was made for the superintendent.

FIRE DEPARTMENT.

The fire-alarm and hydrant maps were brought up to date and prints furnished for the various fire stations in the city, also the Penacook district.

BUILDING PETITIONS.

Ninety-three petitions were presented to the chief of the fire department and myself. Hearings were had on all petitions and our action recorded upon the original petitions, which petitions are on file with the city clerk.

One petition was referred to the Board of Aldermen, but the petitioner changed his plans and told us that he would build of brick.

CEMETERIES.

Considerable time was spent in preparing plans for a cement wall, a stone wall and an iron fence on the Bradley Street side of the Old North Cemetery. The bids received for both the cement and stone walls were much higher than they should have been and were promptly rejected by the cemetery commissioners. The final adoption of an iron fence, with one gateway and stone posts at each side of the gate and at each end of the cemetery, brought the cost to a point that the commissioners were willing to accept. A contract was made for the fence and it was erected and painted by the contractor.

The deed book for Blossom Hill Cemetery has been brought up to date from the deed stubs.

ASSESSORS' MAPS.

The unusual amount of real estate changes during the past year added much to the work of keeping the maps up to date, but it was done and the lists of owners corrected to April 1, 1921, for the assessors.

The property taken by the Boston & Maine Railroad, for the construction of its round house and appurtenances, made it necessary to change the Ward 7 sheets in that locality. The railroad gave us copies of their plans showing land taken, which materially aided us in properly covering the changes made.

MISCELLANEOUS.

Nine prints of a small outline map of the city were made and delivered to the superintendent of schools.

A print of the compact portion of the city was made for the Board of Health.

Plans and sections were made for the suit against the city by the executor of Mrs. Norris' estate.

Prints for the use of the Board of Examiners of Plumbers were made and turned over to them.

A plan showing the proposed extension of the Penacook Sewer Precinct, covering a portion of West Main Street and Pine Street, was made for use of the Board of Aldermen.

A print of Tenney Street layout was made for filing with the city clerk.

Surveys covering the land sold from the old City Farm pasture to E. E. Webber were made, plans plotted, areas figured and the plans filed in this office for future use.

A plan showing the South Main Street line at the building of the Norris Baking Company was made and delivered to Mr. George S. Forrest.

Prints of the plan of Rolfe Park, Penacook, were made and given to the city solicitor to aid him in making a conveyance to the city.
