SEVENTY-THIRD ANNUAL REPORT

OF THE

RECEIPTS AND EXPENDITURES

OF THE

CITY OF CONCORD

FOR THE

YEAR ENDING DECEMBER 31, 1925

TOGETHER WITH OTHER ANNUAL REPORTS  
AND PAPERS RELATING TO THE  
AFFAIRS OF THE CITY

CONCORD, N. H.

## MUNICIPAL REGULATIONS.

### FOR PAYMENT OF BILLS AGAINST THE CITY.

---

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract such liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county poor account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government.

The regular monthly meetings of the city government occur on the second Monday of each month.

ARTHUR E. ROBY,  
*City Clerk.*

AN ORDINANCE REGULATING THE PRODUCTION AND SALE OF MILK AND OF CERTAIN MILK PRODUCTS, AND FOR THE PROTECTION OF THE PUBLIC HEALTH.

*Be it ordained by the Board of Aldermen of the City of Concord, as follows:*

SECTION 1. Classifications of Milk. Milk sold in the City of Concord shall be of three classifications: (a) milk, unqualified, (b) pasteurized milk, (c) special quality milk. Concentrated milks shall not be construed as coming within the purview of this ordinance.

SECT. 2. Raw Milk. (a) Milk, unqualified, shall be raw milk drawn from tuberculin-tested and non-reacting cows, and shall contain not more than 100,000 bacteria per cubic centimeter nor more than 10 organisms of the colon group per hundredth cubic centimeter when plated upon Endo's or similar approved medium. At the time of applying for a license the dealer shall file a certificate, signed by a veterinarian approved by the Board of Health, stating that all cows in the herd or herds from which the milk is produced have been tuberculin-tested by him within one year and found to be free from tuberculosis, together with a detailed report of such tests.

SECT. 3. Pasteurized Milk. (b) Pasteurized milk shall be milk which has been uniformly heated to a temperature of not less than 142 nor more than 147 degrees Fahrenheit for not less than thirty minutes, then cooled immediately to a temperature of 50 degrees Fahrenheit or lower and maintained at that temperature until sold. The temperature and time of heating and holding and the temperature of cooling shall invariably be recorded by an automatic recording device and a duplicate of such device shall be on hand and in good repair at all times. The charts shall be numbered and dated, shall be retained in a locked case while being recorded, and shall be conveniently filed and preserved for a period of not less than three months, to be available for inspection at all times by the Board of Health. Milk intended for pasteurization shall not be more than forty-eight hours old, shall contain not more than 500,000 bacteria per cubic centimeter (nor more than 50 organisms of the colon group per hundredth cubic centimeter) at the time of pasteurization, and shall have been produced in conformity with the conditions hereafter specified. At the time of sale such milk shall contain not more than 25,000 bacteria per cubic centimeter, nor more than 5 organisms of the colon group per hundredth cubic centimeter. Milk shall not be repasteurized, nor shall any milk be sold which has been subjected to pasteurization in a plant so located as not to be reasonably accessible to control and inspection by the Board of Health of this city.

SECT. 4. Special Milk, "Grade A" Milk. (c) Special milk shall be raw milk in the production and distribution of which all the requirements as herein stipulated for milk shall have been complied with and, in addition, which shall contain not more than 25,000 bacteria per cubic centimeter and no organisms of the colon group in a hundredth cubic centimeter, plate method. The bottle in which this grade is distributed shall have a sterile hood or cap so designed as to completely cover the lip. This milk shall test not less than four per cent of fat. All raw milk which may be sold under such names as "baby milk," or similar ones denoting special quality shall conform in all respects to the requirements here specified for special milk.

SECT. 5. Cream. Cream shall contain not more than 500,000 bacteria per cubic centimeter nor more than 50 organisms of the colon group per hundredth cubic centimeter. Pasteurized cream shall contain not more than 50,000 bacteria per cubic centimeter nor more than 10 organisms of the colon group per hundredth cubic centimeter. Cream shall be produced from the milk of healthy animals and shall be subject to the same requirements as to sanitary production and distribution as are herein specified for milk.

SECT. 6. Ice Cream. All milk and cream used for the manufacture within the City of Concord of ice cream for sale shall have been pasteurized and shall comply with the stipulations herein specified. Ice cream shall be of two sanitary grades: (1) grade A, manufactured from pasteurized milk and cream and containing not more than 100,000 bacteria per cubic centimeter, nor more than 20 organisms of the colon group per hundredth cubic centimeter, and (2) grade B, containing not more than 1,000,000 bacteria per cubic centimeter nor more than 100 organisms of the colon group per hundredth cubic centimeter. Conditions and methods pertaining to the manufacture, distribution and sale of ice cream shall comply with the requirements of the New Hampshire Sanitary Food Law and regulations adopted thereunder.

SECT. 7. Examinations. All bacteria counts shall be made by the methods of the American Public Health Association. In the case of milk, the accepted figure shall be the median count of a series of three samples taken at approximately the same time. If these samples disclose upon examination a higher bacterial content than is herein provided, notice shall be sent to the producer or distributor concerned and not less than five days thereafter a second series of samples may be taken. If the second series shows a higher bacterial content than herein provided notice shall again be sent, and not less than three days thereafter a third series of samples may be taken. It shall be considered an infraction of this ordinance should the second and third series of samples exceed in bacterial content the limits herein provided. In the case of cream and ice cream, if the examination of two successive samples shall disclose bacterial contents in excess of the specified limits, the dealer shall be notified, and the Board or its inspector may prohibit further

sales from this lot in case it deems the circumstances to so warrant; and if examination of a succeeding shipment or lot shall disclose bacteria in excess, the dealer shall be liable to prosecution.

SECT. 8. Licensing. The provisions of Chapter 164 of the Public Laws of New Hampshire relating to the licensing of vendors of milk, skimmed milk and cream are hereby adopted, to be in force in this city. Any license granted for the sale of milk or cream may be suspended by the Board of Health for such period as it may deem expedient. Such suspension shall be by written notice served upon the licensee and stating the reason or reasons, and shall be in effect forthwith. Said licensee may apply to the Board for a hearing, which shall be held thereon promptly.

SECT. 9. Equipment and Methods. The following conditions and methods relative to milk production and distribution shall be observed:

(a) All places where milk, cream, or ice cream are produced, manufactured, handled or sold shall be open to inspection by the Board of Health at all reasonable times.

(b) Stables and milk-rooms shall be constructed so as to provide adequate ventilation, lighting and drainage, shall be kept clean, and milk-rooms shall be screened from April 15 to November 1.

(c) The water supply shall be pure and ice shall be provided for cooling purposes.

(d) All containers used in the production and distribution of milk shall, before use, be thoroughly cleansed, using a cleaning preparation, and shall be sterilized with boiling water, live steam, or with the use or aid of such other agency as may be approved by the Board of Health.

(e) Milk and its containers shall not be exposed to flies, dust or other contaminative conditions.

(f) Manure shall be removed from the stable twice daily and be disposed of so as not to be a means of contamination of the milk.

(g) Cows shall be healthy and maintained in cleanly condition, and no milk shall be sold which is drawn from cows within fifteen days before or five days after parturition.

(h) Udders shall be cleaned before commencing milking.

(i) Milking shall be done with clean, dry hands into small-topped milking pails, or with a clean milking machine.

(j) All persons while engaged in milking or in handling milk shall wear clean, washable outer garments.

(k) Milk shall be removed from the stable to a milk-room immediately after milking, in the pails into which it was drawn, and shall be quickly cooled to 50 degrees Fahrenheit or lower and shall be maintained at such temperature during transportation and pending sale to the consumer.

(l) All rooms in which milk is cooled, strained, mixed, bottled or stored shall be kept clean at all times, shall be provided with self-closing screen doors, and shall not be used for sleeping purposes, for the storage

of any offensive matter, nor be frequented by cats, dogs or other animals. No water-closet or privy shall be in or in direct communication with such room. Adequate facilities shall be provided for washing and sterilizing utensils and containers.

(m) Surface coolers, unless located in a closed room used exclusively for cooling, or for pasteurizing and cooling, shall be protected during use by metal covers.

(n) Caps for bottles shall be purchased in sterilized containers and shall remain protected from contamination.

(o) Milk shall not be sold or delivered in other than tightly closed or capped bottles or receptacles which have been filled exclusively at the dairy or receiving station.

(p) Milk served at hotels, restaurants and lunch rooms in bottles shall be in the original capped containers as filled only at the dairy or pasteurizing plant.

(q) During transportation some method of covering approved by the Board of Health shall be employed. Covering in such manner as to tend to contaminate the mouths of containers is forbidden. No offensive or waste material shall be carried in any vehicle used for the transportation of milk.

SECT. 10. Workers Exposed to Disease. No person ill with or harboring the organisms of any communicable disease, or caring for or coming in contact with any person having such disease, shall be employed in the production, handling or sale of milk, cream, or ice cream. No person exposed to such disease, or in whose family such disease exists, shall be so employed except with the written consent of the Board of Health.

SECT. 11. Notification Concerning Diseases. Immediately upon the discovery of a case of tonsillitis, scarlet fever, diphtheria, typhoid fever, or of any other communicable disease, either in himself, his family, or in any employee or the family of such, every person engaged in the production, distribution or sale of milk, cream or ice cream for or in the City of Concord shall notify the Board of Health of this city. It shall also be the duty of any employee, so engaged, whenever such a disease may develop in his or her family, to notify the Board.

SECT. 12. Health Certificates for Pasteurization Plant Operators. The proprietor or manager of every pasteurization plant shall, at least annually, himself secure and shall require, before employment and at least annually thereafter, every employee handling milk or milk utensils also to secure from a physician approved by the Board of Health a certificate stating that the holder thereof is not afflicted with any communicable disease, and a copy of such certificate shall be filed with the Board of Health. Said Board is hereby empowered to require any persons engaged in the production, distribution or sale of milk, cream or ice cream to furnish similar certificates, in cases where it may consider the situation so warrants.

SECT. 13. Care of Receptacles in Case of Disease. No bottle, can or receptacle used for milk or cream distribution shall be removed from a private house, apartment or tenement wherein a person has a communicable disease until consent therefor has been obtained of the Board of Health.

SECT. 14. Power to Make Rules. In order to facilitate the enforcement of this ordinance, the Board of Health is hereby empowered to make such rules as may be necessary, consistent with the provisions herein contained.

SECT. 15. Penalty for Violations. Any persons, firm, company or corporation violating any of the provisions of this ordinance, or any rule lawfully made hereunder, or whoever hinders or obstructs any inspector in the pursuit of his lawful duty, shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine not exceeding ten dollars.

SECT. 16. This ordinance shall take effect October 1, 1925, except as to the provisions with regard to milk from tuberculin-tested animals, which shall take effect April 1, 1926. The provisions of Sections 19 to 24 inclusive of Chapter 13 of the city ordinances, relating to the sale and care of milk, are hereby repealed.

Passed May 11, 1925.
