REPORT

OF THE

COMMITTEE ON FINANCE.

The Joint Standing Committee on Finance, in conformity with the requirements of the ordinance prescribing their duties, "establishing a system of accountability in the expenditures of the city," submit to the City Council their Annual Report of the Receipts and Expenditures of the financial year, ending February 1, 1858:

We have examined the Treasurer's books, and those of the City Clerk, and find that all payments therein recorded, are duly authenticated with appropriate vouchers, and that the several items, footings and balances are correctly cast and stated, and that the books of those officers have been faithfully kept, and with a system that cannot fail to give satisfaction to the tax-payers of the city.

CHIEF ENGINEER'S REPORT.

To His Honor the Mayor, and the Board of Aldermen of the City of Concord:

In accordance with my duty, as laid down by the Act establishing the Fire Department of the City of Concord, I would respectfully make the following report:

The city has been particularly fortunate in relation to losses by fire during the past year, no building of any magnitude having been destroyed, and in most of the cases comparatively little damage was done, owing to the promptness of the various companies composing the Department. There have been seven alarms during the year, which were as follows:

April 20.—Fire at the house of Mr. Rufus Abbott, at West Concord.

July 11.—Fire at the Northern Railroad; partial burning of a small shop for storing tools, &c. This fire was occasioned by the spontaneous combustion of a small quanty of waste cotton in a box, saturated with oil, probably.

Sept. 14.—Fire at the dwelling house of Mr. George M. White, on Green street—damage about $200. This fire was evidently the work of an incendiary, who broke into the house in the absence of the family, for the purpose of plunder.

Oct. 20.—Fire at Sanborn's Block, occasioned by a defect in the chimney. This fire was confined to the Hall where it was first discovered. There were two streams of water playing on the fire in about eight minutes after the alarm, and by the promptness of the Department a most extensive conflagration was prevented, as there was an uncommonly high wind at the time. Damage by fire and water, considerable—amount not ascertained.
