Hook and Ladder Co.,		416-27
		<u>\$10,121-83</u>
		<u>\$118,947-81</u>

* The above valuation was made in 1854; but the additions since made, it is believed, will more than counterbalance the loss by wear and tear since that time—\$450-00 having been appropriated for that purpose during the past year.

Taxes for 1858.

State, county, city, school and highway taxes,	35,381-23
Non-resident taxes,	400-95
School-house taxes,	9,301-98
Precinct tax,	\$445-51
	<u>\$45,529-67</u>

SIXTH ANNUAL REPORT

OF THE

COMMITTEE ON THE CITY FARM.

To the Board of Mayor and Aldermen :

The undersigned, Joint Standing Committee on the City Farm, having attended to the duty assigned them, of taking an inventory of the property of the Farm, respectfully submit the following Sixth Annual Report :

Appraised value of farm and buildings in 1858,	\$7630-00
" " " personal property in 1858,	3201-14
" " " improvements	49-00
Total,	\$10880-14

Appraised value of farm and building in 1859,	\$7630-00
" " " personal property, in 1859,	2941-18
Improvements in addition to house,	150-00
Total,	\$10721-18

Number of paupers at the farm, Feb. 1, 1859,	21
Average number for the year,	21
Whole number for the year,	67
Died,	3
Sent to house of correction,	4

The receipts and expenditures for the past year will appear from the report of the overseer.

An addition to the house of a room for the sick has been made the past year.

The Committee find the farming operations well managed,

and neatness and order apparent in the household department, and the inmates as comfortable and happy as their varied habits and dispositions will admit.

Respectfully submitted,

ELBRIDGE DIMOND, }
TIMOTHY C. ROLFE, } *Committee.*
ISAAC VIRGIN, }

CHIEF ENGINEER'S REPORT.

To His Honor the Mayor, and the Board of Aldermen of the City of Concord :

In conformity with my duty as Chief Engineer, I would respectfully submit the following report :—

There have been during the past year, or since the first of last June, *fourteen fires and alarms*, as follows :

June 18.—Fire at Fisherville ; burning partially an out-building connected with the factory. Loss, \$50.00. Covered by insurance.

Sept. 6.—Fire on the Concord Railroad, near the gas house, burning partially one car load of wood. Supposed to have been set on fire by one of the engines on the road.

Sept. 9.—False alarm given at the north end of Main street, by some person unknown.

Oct. 12.—Alarm caused by the partial burning of a lot of ties or sleepers on the Northern Railroad, above the Free Bridge road. Supposed incendiary.

Oct. 28.—Fire at the north end of Main street, burning a barn belonging to Mr. F. N. Fiske. Damage, \$500. Insured for \$200. Supposed incendiary.

Oct. 31.—Fire on the Fair Ground, at the south end of South street, burning a shed and partially burning a lot of boards stored in the shed, belonging to Mr. Nathaniel White. Damage about \$200. Incendiary.

Nov. 2.—Fire on Monroe street, burning a house belonging to Mr. Loammi Gould. Damage, \$500. Supposed incendiary.

Nov. 16.—Alarm caused by the partial burning of a pile of ties or sleepers on the Northern Railroad, near the Steam Mills of the Messrs. Holt. Supposed incendiary.

Dec. 10.—Fire burning the stable back of the Union Hotel, belonging to Mr. B. F. Dunklee. Damage, \$650. No insurance. Accidental.

Dec. 11.—Fire in No. 2 engine house, extinguished without a general alarm by Mr. Roby and others who were in the house at the time. Cause, defect in the chimney.

Dec. 16.—Fire in the rear of the Elm House, burning the stable belonging to William M. Carter, and used by Mr. Foster, the proprietor of the Elm House, and Mr. John Neally. Damage about \$200. Incendiary.

Dec. 17.—False alarm caused by the carelessness of the messenger sent to notify the foreman of No. 3 to come with 20 or 30 of the company to extinguish the burning hay which had assumed a dangerous appearance in the ruins of Mr. Carter's stable.

Dec. 27.—Fire between State and Main street, burning the shop and stable of Mr. John Chandler. Damage, \$600. Supposed incendiary.

There was also a slight fire on the Concord Railroad, which was extinguished by Company No. 3, without giving a general alarm.

The fire apparatus of the city is located as follows :

CONCORD, No. 2.—Near the State prison, at the North end of State street ; has 550 feet of hose, in good repair. No. of members 60.

MERRIMACK, No. 3.—Near Abbott's Coach Factory, south end of Main street ; has 500 feet of hose in good repair. No. of members 60.

PENNACOOK, No. 4.—On Warren street ; has 500 feet of hose in good repair. No. of members, 60.

CATARACT, No. 6.—At West Concord ; has 400 feet of good hose, and 100 feet of old hose. No. of members, 40.

OLD FORT, No. 7.—At East Concord, has 300 feet of hose in good repair. No. of members, 40.

PIONEER, No. 8.—At Fisherville ; has 500 feet of hose in good order. No. of members, 50.

HOOK AND LADDER, No. 1.—Is located in the same building with Engine Company No. 4, on Warren street. No. of members, 50.

There are also two old engines belonging to the city ; one at the north, (No. 1,) the other, (No. 5,) at the south end, in the hands of young gentlemen from 15 to 18 years of age. These small engines, in many places in the city can, and no doubt will, do good service.

For the location of reservoirs I would refer to the Chief Engineer's report of 1857 and 1858. We have found it necessary during the past season, owing to the streets being raised, to raise the mouths of a number of the reservoirs, and cement them ; we have also taken from the one near Mr. F. N. Fisk's house, some five feet of clay. There are others which should be cleaned out. The reservoir near the South Church was drained in about 15 or 20 minutes, at Mr. Chandler's fire. We are of opinion that a drain running from Messrs. Clough and Corning's Block, and near that reservoir, must have injured it very much.

The places where reservoirs are most needed at this time, in the opinion of the Board of Engineers, are as follows : A reservoir is needed very much indeed on the hill, near Mr. A. B. Holt. There is located in that vicinity one hundred thousand dollars worth of taxable property, without any protection in the shape of a reservoir,

in case of fire. The Board of Engineers have received estimates showing that a reservoir of sufficient capacity to supply two engines for two hours, could be built and supplied with water for \$475 or \$500; and they are of opinion that one should be built as soon as possible. They would also recommend that one be built at the corner of Spring and Centre streets. A reservoir is very much needed in Fisherville, on the hill west of the village. A plank reservoir could, in the opinion of the Board, be built for 100 dollars, and perhaps less, and the citizens will supply it with water without any expense to the city. The Board recommend the building of one in that place.

With regard to the sum paid annually to the firemen, the Board would recommend that it be paid in instalments of 17 cents per month, for the time they belong to the company, to avoid difficulties which exist at the present time with regard to their pay.

I would tender my sincere thanks to the Board of Engineers for their prompt and efficient aid on all occasions. I would do the same also to all the firemen composing the different companies; they have done their duty on all occasions with promptness and efficiency.

The apparatus has been kept by the stewards of the different companies to the entire satisfaction of the Board of Engineers.

All which is respectfully submitted.

OSCAR G. INGALLS, CHIEF ENGINEER.

The following are the names of the members of the Fire Department at the present time :

BOARD OF ENGINEERS.

Oscar G. Ingalls, Chief Engineer; Leonard Drown, James Frye, Moses Humphrey, B. H. Lincoln, A. B. Holt, Lowell Eastman, James L. Mason, Luther P. Fuller, Assistant Engineers.

S. C. BADGER.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

[For the year ending Jan. 27, 1859.]

A good measure of prosperity has attended the City Library, during the past year. Its records show a good number of subscribers, and the books upon its shelves have been sought with an avidity that attests the indispensableness of the institution to supply the intellectual wants of our community. The usefulness of the library has been somewhat hindered by the lack of means to supply it with many books, the possession of which is desirable. However, the Trustees have attempted to make the most of the means at their disposal, and have, from time to time, made such additions to the Library, as were most imperatively demanded.

During the past year, 410 volumes have been added by purchase, and 76 by donation. The total number of volumes now in the Library is 2778. Of these 2162 volumes are for general reading and circulation, and 616 are more particularly adapted for reference, having been donated to the Library at sundry times. By the Treasurer's report it appears that \$228.16 has been expended for books; to this amount should be added the sum of about \$70 upon orders drawn but not paid at the time the report was made, making a total of \$298.16.

The other principal expenses for the year have been the Catalogue, (the sales of which will in time, make full reimbursement), the re-binding of books, and the compensation of the Librarian. For the payment of the Librarian and the re-binding of books, (which last item has amounted, the last year to \$90.28,) it may be safe to rely upon subscriptions and fines. But to obtain the proper yearly supplies of books, the institution must look to other sources. During the past year the Library has received an appropriation of \$50 from the city Treasury. If the Library is to be properly sustained, and made to answer at all the purposes for which it was established, an appropriation of at least \$300 a year must be made for some years, by the city government, for its benefit. The expected gifts of money from certain persons who have intimated their purpose of making bestowments upon the Library, have not yet been received, and it is a matter of uncertainty when they will be. Until they be received, the Library must look for maintenance in respect of the supply of books to the city government that brought it into existence. In every other city, the Public Library is the object of liberal annual appropriations, shall it be an exception in this ?

The following are some of the principal donations of books during the past year:

One Mass., Agricultural Report 1857; 1 Ohio Agricultural Report, 1857; 1 Maine Agricultural Report, 1857; 1 Maine Agricultural Reports 1856; 6 vols., New Hampshire Agricultural Report, to 1857. by J. C. A. Wingate, Esq.; 2 copies "Another Budget"; 1 Christmas Gift; 1 Sarah Barry's Home; 1, My Mother's Jewels, from Mrs. J. A. Eames; 1 Salad for the Social; 1 Salad for the Solitary, by Charles Minot Esq.; 1 N. P. Rogers' Writing, by R. C. Osgood; 1 Writings of W. Loyd Garrison; 1 Emerson's Representative Men; 7 vols. Theodore Parker's Works, from Nathaniel White, Esq.; 1 vol. Smithsonian Report, 1858, from the Secretary.

As to the financial condition of the Library we refer to the account of the Treasurer, E. S. Towle, Esq., herewith appended.

REPORT OF COMMITTEE ON CITY HALL.

The Committee appointed March 15, 1851, to purchase land, and in conjunction with the county of Merrimack, to cause to be erected thereon, and on land of said county, a suitable Court House, and City Hall, respectfully

REPORT :

That they purchased for the aforesaid purpose, of John W. Noyes, the Dearborn lot, so called, for the sum of (\$6330) sixty-three hundred and thirty dollars ; of the late Nathan Stickney, another adjoining tract of land, for the sum of one dollar ; and at a later date of Seth Eastman, Agent, the McDaniel estate for the sum of (\$1163) eleven hundred and sixty-three dollars.

That they subsequently concluded an agreement with said county for the erection of a Court House and City Hall, upon this and land of said county ; said county to share equally with the city of Concord the expense of erecting said building, which agreement is now on record in the office of the Register of Deeds of said county.

That not long afterwards in conjunction with said county, they made contracts with different parties for the construction of said building as follows, to wit, with Luther Roby & Son for the stone work, with Henry M. Robinson for the brick work, with A. Webster & Son, for the carpenters' work, with William K. Holt for timber, with Amos Bean, Joseph R. Bowers, Philip Sargent, and A. & D. L. Holt, for bricks, and with Henry M. Morse, for the completion of said building. For the terms and specifications of said contracts you are respectfully referred to the several instruments now on file in the office of the clerk of the court for said county.

The expenditures made by this committee for excavations, drains, grading of lot, erecting, finishing and furnishing of said building,

have been (\$31-713-04) thirty-one thousand seven hundred and thirteen dollars and four cents, as follows, to wit :

Paid as follows :

J. Abbott, for grading and split- ting stone,	1,238-62
	<u>\$31,713-04</u>

There is an unsettled claim of H. M. Moore, not included in the above. The nominal amount is \$2-178, but it is believed that the sum which has been offered him in settlement (\$700) covers all which is justly due, one half of this claim is to be paid by the county.

All of which is respectfully submitted,

RICHARD BRADLEY,	} COMMITTEE.
JOSEPH B. WALKER,	
JOHN ABBOTT,	
J. MINOT,	
DAN'L H. FLETCHER,	
JOSEPH LOW.	}

Concord, Feb. 12, 1859.
