ADDENDUM NUMBER FOUR

B11-12

OLD SUNCOOK ROAD LANDFILL FENCE CONSTRUCTION

TO ALL FIRMS OF RECORD: This addendum forms a part of and modifies the bidding and contract documents and technical specifications for the project named above. The following changes, additions and clarifications are made to the original Contract Documents:

1. Question: It has come to my attention that it would be less of an impact to the ground (less vehicle traffic) and the environment if we could chip all wood materials that are to be cleared onsite and leave the wood chippings behind while not creating a pile of wood mulch but a nice area where they would become a natural part of the environment. The chips could even be used as part of the cleared pathway created or scattered around on site near the cleared area. All tree and brush material that could not be chipped up would still be removed from the site and disposed of properly. Please advise.

Answer: This is acceptable to the City. The specifications for clearing and grubbing will not be modified and re-issued at this point but this suggestion can be considered incorporated by reference into the clearing and grubbing specifications.

PLEASE BE ADVISED THAT THE CONTRACTOR MUST ACKNOWLEDGE RECEIPT OF ADDENDUM ONE, TWO, THREE AND FOUR ON THE SIGNATURE PAGE OF THE BID/ITEMIZED BID SHEETS (PAGE 41).
